

Safety Data Sheet

Section 1: Identification

Product Name: Penny Royal oil
Botanical Name: Mentha pulegium
Synonyms: Pulegium vulgare
INCI Name: Pulegium vulgare oil
CAS #: 8013-99-8
Country of Origin: France
Company: Soapgoods Inc
Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093
Phone: (404) 924-9080
E-Mail: wecare@soapgoods.com
Emergency Phone: Chemtrec: 1-800-424-9300
Recommended Use: Personal Care

Section 2: Composition/Information on Ingredients

Chemical Identification: Oils, penny royal
UN No. 1169: Liquid aromatic extract.
Packaging Group: III Class: 3

Section 3: Hazard(s) Identification

Slightly hazardous.

Section 4: Physical and Chemical Properties

Appearance: Colorless to pale yellow liquid.
Odor: Characteristic sweet herbaceous mint odor.
Solubility: Soluble in alcohol and oils. Insoluble in water.
Specific Gravity: 0.930 - 0.944 @ 20°C

Optical Rotation: +15° - +24° @ 20°C
Refractive Index: 1.480 - 1.492 @ 20°C
Pulegone: > 80%

Menthone: 0.50 - 30.8 %

Iso-Menthone: 5.20 - 19.8 %

Extraction Method: Steam distillation of the flowers.

Contents: Pulegone, menthone, iso-menthone, neo-menthone, iso-pulegone, menthofuran.

Flash Point: 68 °C

Section 5: Fire-Fighting Measures

Flash Point: 68 °C Combustible liquid. Will ignite if moderately heated.

Section 6: Stability and Reactivity

Reactivity: Stable.

Decomposition: When heated to decomposition produces toxic fumes/carbon monoxide smoke.

Section 7: Toxicological Information

Oral (rat), LD50 = 0.4 g/kg

Dermal (rabbit), LD50 = 4.2 g/kg

Pennyroyal oil is toxic and an abortifacient - should be avoided during pregnancy. In small quantities can even cause acute liver and lung damage. Use extremely well diluted.

Section 8: Exposure Controls/Personal Protection

Spillage: Absorb spills, cover with an inert, non-combustible, inorganic absorbent material, and remove to an approved disposal container.

Fire: Recommended extinguishing media - CO2, foam and dry chemicals. DO NOT use direct water jet on burning material.

Environment: Keep away from drains, surface and ground water.

Storage: Store in cool, dry and well ventilated area protected in tightly closed container away from sources of ignition, heat and sunlight. Keep air contact to minimum.

Section 9: First-Aid Measures

Eye Contact: Flush with water for at least 15 minutes. Call physician if irritation persists.

Inhalation: Remove to fresh air. Avoid casual breathing.

Ingestion: Rinse mouth and consult a physician immediately. Never-give anything by mouth if victim is unconscious, is rapidly-losing consciousness, or is convulsing.

Skin Contact: Remove contaminated clothing. Wash with soap and plenty of water.

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard.

Conditions to Avoid: Avoid sparks, flame and excessive heat.

Materials to Avoid: Strong oxidizing agents.

Flammability: Combustible liquid.

Hazardous Polymerization: Will not occur. Hazardous Combustion or None known.

Decomposition Products: When heated to decomposition produces acid fumes and carbon monoxide smoke.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin Contact: Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis).

Adverse skin effects should be prevented by normal care and personal hygiene

Eye Contact: May irritate eyes.

Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting. Medical Conditions Aggravated: No Known toxicity. Avoid use during pregnancy. by Exposure: May aggravate dermatitis, psoriasis and other skin conditions.

Chronic Toxicity: May cause allergic reactions on skin

Carcinogenicity Data: None of the components of this material are listed as a carcinogen.

Reproductive Toxicity: No adverse effects on reproduction are known. Acute Toxicity Values: No data is currently available.

Section 12: Ecological Information

Very toxic to aquatic organism may cause long-term adverse effects in the aquatic environment. Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Incineration or sanitary landfill in accordance with local, provincial and federal regulations. Check with disposal expert to insure compliance

Section 14: Transport Information

Chemical Identification Oils

UN No. 1169 Liquid aromatic extract

Packaging Group: III Class: 3

Disclaimer

Soapgoods it's affiliates and any other officers, directors or employees, agents, third-party content providers, merchants, sponsors, licensors or the like (now referred to as Soapgoods) cannot anticipate all conditions under which this information and its product, or the products of other manufacturers in combination with its product may be used. It is the user's responsibility to ensure safe conditions for handling, storage and disposal of the product, and to assume liability for loss, injury, damage or expense due to improper use. The information in the sheet was written based on the best knowledge, and experience currently available. You expressly agree that your use of this MSDS is at your sole risk. Soapgoods expressly disclaims all express or implied warranties or merchantability and fitness for a particular purpose, with respect to the product or information provided herein, and shall under no circumstances be liable for incidental or consequential damages.

Do not use the ingredient information and/or ingredient percentages in this MSDS as a product specification. For product specification information refer to a product specification sheet and/or a certificate of analysis.

All information appearing herein is based upon the data obtained from the manufacturer and/or recognized technical sources. While the information is believed to be accurate, Soapgoods makes no representations as to its accuracy or sufficiency. Conditions of use are beyond Soapgoods control and therefore users are responsible to verify this data under their own operating conditions to determine whether the product is suitable for their particular purposes and they assume all risks of their use, handling, and disposal of the product, or from the publication or use of, or reliance upon, information contained herein. This information relates only to the product designated herein, and does not relate to its use in combination with any other material or in any other process.

Review Date: December 2015

Safety Data Sheet

Section 1: Identification

Product Name: Pepper (Black) Essential Oil
Botanical Name: Piper nigrum
Synonyms: Piper nigrum L., Piper nigrum (LINN.)
INCI Name: Piper nigrum (pepper) seed oil
CAS #: 8006-82-4
Country of Origin: India
Company: Soapgoods Inc
Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093
Phone: (404) 924-9080
E-Mail: wecare@soapgoods.com
Emergency Phone: Chemtrec: 1-800-424-9300
Recommended Use: Personal Care

Section 2: Composition/Information on Ingredients

Contents: α -pinene, β -pinene, 1-a -phellandrene, β -caryophyllene, limonene and sabine-delta-3-carene.
Pungency: piperine, the trans, trans form of 1-piperoylpiperidine. α -Phellandrene: 15 - 25 % β -Pinene: 8.0 - 14 % β -Caryophyllene: 12 - 18 % α -Pinene: 6.0 - 10 % Limonene: 8.0 - 13 %

Section 3: Hazard(s) Identification

N/A

Medical Information: N/A

Section 4: First-Aid Measures

Eye Contact: Contact with eyes can produce burning sensation. Irrigate with water immediately, continue flushing eyes with water for 15 minutes. Seek medical attention if irritation persists.

Inhalation: Remove to fresh air. Give oxygen if breathing is labored and seek medical advice. Avoid casual breathing. Signs of over exposure are dizziness and nausea.

Ingestion: Rinse mouth; dilute with milk or water and consult a physician immediately. Do not induce vomiting. Never-give anything by mouth if victim is unconscious, is rapidly losing or is Convulsing.

Skin Contact: Skin contact can produce irritation, or itching of the skin. Remove contaminated clothing Wash with soap and plenty of water. Seek medical attention if irritation persists.

Section 5: Fire-Fighting Measures

Flash Point: >54 °C Combustible liquid. Will ignite if moderately heated.

Extinguishing media: Carbon Dioxide, dry chemical or foam. Closed containers may build up pressure at elevated temperature

Special Procedures: Determine the need to evacuate or isolate the area according to your local emergency plan. Unusual

Firefighting Hazards: None identified.

Protective Equipment: Self-contained breathing apparatus and protective clothing should be worn when

fighting fires involving essential oils or chemicals.

Combustion Product: Carbon Monoxide, Carbon Dioxide

Section 6: Accidental Release Measures

Personal Precautions: Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8.

Safety Precautions: Eliminate all ignition sources. Ventilate area. Determine the need to evacuate or isolate the area according to your local emergency plan.

Environmental Precautions: Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods For Cleaning Up: Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Section 7: Handling and Storage

Handling: Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use.

Storage: Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition. Make sure the material does not come into contact with substances listed as: "Materials to Avoid".

Section 8: Exposure Controls/Personal Protection

Eyes Protection: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended

Respiratory Protection: In well- ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of "NIOSH" approved respiratory protection normally required (use only if trained in proper use and with acceptable oxygen level).

Protective Gloves: Using chemical resistant gloves is recommended.

Protective Clothing: Using chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained.

Note: These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions

Section 9: Physical and Chemical Properties

Appearance: Brownish yellow free flowing liquid

Odor: Characteristic spicy pepper odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.853 - 0.880 @ 25 ° C

Optical Rotation: -1.0 - -26 @ 20°C

Refractive Index: 1.478 - 1.488 @ 25 ° C

Extraction Method: Steam distillation of the dried berries.

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard.

Conditions to Avoid: Avoid sparks, flame and excessive heat.

Materials to Avoid: Strong oxidizing agents.

Flammability: Combustible liquid.

Hazardous Polymerization: Will not occur. Hazardous Combustion or None known.

Decomposition Products: When heated to decomposition produces acid fumes and carbon monoxide smoke.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin Contact: Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene

Eye Contact: May irritate eyes.

Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting. Medical Conditions Aggravated by Exposure: May aggravate dermatitis, psoriasis and other skin conditions.

Chronic Toxicity: May cause allergic reactions on skin

Carcinogenicity Data: None of the components of this material are listed as a carcinogen.

Reproductive Toxicity: No adverse effects on reproduction are known. Acute Toxicity Values: No data is currently available.

Section 12: Ecological Information

Very toxic to aquatic organism may cause long-term adverse effects in the aquatic environment. Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Incineration or sanitary landfill in accordance with local, provincial and federal regulations. Check with disposal expert to insure compliance

Section 14: Transport Information

Review Date: December 2015

Safety Data Sheet

Section 1: Identification

Product Name: Peppermint Essential Oil - Japanese

Botanical Name: Mentha arvensis

Synonyms: M. arvensis var. piperascens, Mentha austriaca, Mentha arvensis L.

INCI Name: Mentha arvensis leaf oil

CAS #: 68917-18-0

County of Origin: India.

Company: Soapgoods Inc

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

Section 2: Composition/Information on Ingredients

Contents: Menthol, menthone, menthyl acetate, limonene, neomenthol, isomenthone and traces of 1,8-cineol, piperitone, camphene, linalool, β -caryophyllene, β -caryophyllene epoxide, pulegone, α -pinene, β -pinene, germacrene D, menthofurane, and β -hexenyl enylacetate. Chemical constituents Terpenes 7.6% L-Menthol 38.68% Total Menthone 30.60 T.M.C. 56.58%

Section 3: Hazard(s) Identification

Menthol.

Hazard symbol: Xi N

R phase: 37/38, 41, 43, 51/83

Medical Information: Avoid in case of heart disease, fever and epilepsy.

Section 4: First-Aid Measures

Eye Contact: Contact with eyes can produce burning sensation. Irrigate with water immediately, continue flushing eyes with water for 15 minutes. Seek medical attention if irritation persists.

Inhalation: Remove to fresh air. Give oxygen if breathing is labored and seek medical advice. Avoid casual breathing. Signs of over exposure are dizziness and nausea.

Ingestion: Rinse mouth; dilute with milk or water and consult a physician immediately. Do not induce vomiting. Never-give anything by mouth if victim is unconscious, is rapidly losing or is Convulsing.

Skin Contact: Skin contact can produce irritation, or itching of the skin. Remove contaminated clothing Wash with soap and plenty of water. Seek medical attention if irritation persists..

Section 5: Fire-Fighting Measures

Flash Point: 160°C Combustible liquid. Will ignite if moderately heated.

Extinguishing media: Carbon Dioxide, dry chemical or foam. Closed containers may build up pressure at elevated temperature

Special Procedures: Determine the need to evacuate or isolate the area according to your local emergency plan.

Unusual Firefighting Hazards: None identified.

Protective Equipment: Self-contained breathing apparatus and protective clothing should be worn when fighting fires involving essential oils or chemicals. Combustion Product: Carbon Monoxide, Carbon Dioxide

Section 6: Accidental Release Measures

Personal Precautions: Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8.

Safety Precautions: Eliminate all ignition sources. Ventilate area. Determine the need to Evacuate or isolate the area according to your local emergency plan.

Environmental Precautions: Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods For Cleaning Up: Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Section 7: Handling and Storage

Handling: Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use.

Storage: Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition Make sure the material does not come into contact with substances listed as: "Materials to Avoid".

Section 8: Exposure Controls/Personal Protection

Eyes Protection: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended

Respiratory Protection: In well- ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of "NIOSH" approved respiratory protection normally required (use only if trained in proper use and with acceptable oxygen level).

Protective Gloves: Using chemical resistant gloves is recommended.

Protective Clothing: Using chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained.

Note: These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions

Section 9: Physical and Chemical Properties

Appearance: Clear, Colorless to pale yellow Liquid

Odor: Clean Peppermint, pungent

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.890 - 0.910 @ 20°C

Optical Rotation: -24 - -15 @ 20°C

Refractive Index: 1.4560 - 1.4660 @ 20°C

Total Menthol: 40 - 75 %

L-Menthone: 30 - 45 %

Extraction Method: Steam distillation of the herb.

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard.

Conditions to Avoid: Avoid sparks, flame and excessive heat.

Materials to Avoid: Strong oxidizing agents.

Flammability: Combustible liquid.

Hazardous Polymerization: Will not occur. Hazardous Combustion or None known.

Decomposition Products: When heated to decomposition produces acid fumes and carbon monoxide smoke.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin Contact: Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene

Eye Contact: May irritate eyes.

Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting.

Medical Conditions Aggravated by Exposure: May aggravate dermatitis, psoriasis and other skin conditions.

Chronic Toxicity: May cause allergic reactions on skin

Carcinogenicity Data: None of the components of this material are listed as a carcinogen.

Reproductive Toxicity: No adverse effects on reproduction are known.

Acute Toxicity Values: No data is currently available.

Section 12: Ecological Information

Very toxic to aquatic organism may cause long-term adverse effects in the aquatic environment. Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Incineration or sanitary landfill in accordance with local, provincial and federal regulations. Check with disposal expert to insure compliance

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

SECTION: 2. Classification

Chemical Identification: Oil, peppermint

UN No. 1169: Liquid aromatic extract.

Packaging Group: III

Class: 3

24 HOUR EMERGENCY TELEPHONE NUMBER: (613)-996-6666 CANUTEC

SECTION: 3. Hazardous Ingredients Information

Menthol.

Section 4: Physical and Chemical Properties

Appearance: Colorless to pale yellow liquid.

Odor: Characteristic menthol-like odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.879 - 0.910 @ 20°C

Optical Rotation: -16 - -30 @ 20°C

Refractive Index: 1.460 - 1.470 @ 20°C

Menthol: 45 - 55 % by g.c.

Menthone: 15 - 32 % by g.c.

Menthyl Acetate: 4.5 - 10 % by g.c.

Extraction Method: Steam distillation of the herb.

Contents: Menthol, menthone, menthyl acetate, neomenthol, menthofurane, pulegone, isomenthone and traces of 1,8-cineol, piperitone, limonene, carvone

Flash Point: 66°C closed cup

Section 5: Fire-Fighting Measures

Flash Point: 66°C closed cup Combustible liquid. Will ignite if moderately heated.

Section 6: Stability and Reactivity

Reactivity: Stable. Avoid contact with strong oxidizers, phenol, chloral hydrate, betanaphthol and resorcinol or thymol titrations.

Decomposition: When heated to decomposition produces acrid fumes and carbon monoxide smoke.

Section 7: Toxicological Information/Information

Oral (rat), LD50 = 2426 mg/kg Skin (rabbit), LD50 >5 g/kg Slightly hazardous to the skin (irritant), eyes and respiratory tract. May also cause allergic dermatitis. In case of eye contact, may cause loss of corneal epithelium, corneal infiltration, and release of pigment into anterior chamber with deposits on back of cornea. Possible mutagen.

Section 8: Exposure Controls/Personal Protection

Spillage: Absorb spills, cover with an inert, non-combustible, inorganic absorbent material, and remove to an approved disposal container.

Fire: Recommended extinguishing media - CO2, foam and dry chemicals. DO NOT use direct water jet on burning material.

Environment: Keep away from drains, surface and ground water.

Storage: Store in cool, dry and well ventilated area protected in tightly closed container away from sources of ignition, heat and sunlight. Keep air contact to minimum.

Section 9: First-Aid Measures

Eye contact: Flush with water for at least 15 minutes. Call physician if irritation persists.

Inhalation: Remove to fresh air. Avoid casual breathing.

Ingestion: Rinse mouth and consult a physician immediately. Never-give anything by mouth if victim is unconscious, is rapidly-losing consciousness, or is convulsing.

Skin contact: Remove contaminated clothing. Wash with soap and plenty of water.

SECTION: 11. Individual Protection for Industrial and Bulk Container Use

Use safety glasses.

Avoid breathing in product by ensuring good ventilation when handling.

Avoid skin contact by using chemical resistant gloves.

SECTION: 12. OTHER INFORMATION

Section 16: Other Information

Section 6: Accidental Release Measures

Personal Precautions: Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8.

Safety Precautions: Eliminate all ignition sources. Ventilate area. Determine the need to Evacuate or isolate the area according to your local emergency plan.

Environmental Precautions: Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods For Cleaning Up: Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Section 7: Handling and Storage

Handling: Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated

clothing and shoes should be cleaned before re-use.

Storage: Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition. Make sure the material does not come into contact with substances listed as: "Materials to Avoid".

Section 8: Exposure Controls/Personal Protection

Eyes Protection: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended

Respiratory Protection: In well- ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of "NIOSH" approved respiratory protection normally required (use only if trained in proper use and with acceptable oxygen level).

Protective Gloves: Using chemical resistant gloves is recommended.

Protective Clothing: Using chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained.

Note: These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions

Section 9: Physical and Chemical Properties

Appearance: Pale yellow to pale amber liquid.

Odor: Characteristic sweet balsamic odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 1.050 - 1.15 @ 20°C

Refractive Index: 1.495 - 1.655 @ 20°C

Assay: 82 - 96.0 %

Extraction Method: Vacuum dry distillation of the crude balsam.

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard.

Conditions to Avoid: Avoid sparks, flame and excessive heat.

Materials to Avoid: Strong oxidizing agents.

Flammability: Combustible liquid.

Hazardous Polymerization: Will not occur. Hazardous Combustion or None known.

Decomposition Products: When heated to decomposition produces acid fumes and carbon monoxide smoke.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin Contact: Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene

Eye Contact: May irritate eyes.

Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting.

Medical Conditions Aggravated by Exposure: May aggravate dermatitis, psoriasis and other skin conditions.

Chronic Toxicity: May cause allergic reactions on skin

Carcinogenicity Data: None of the components of this material are listed as a carcinogen.

Reproductive Toxicity: No adverse effects on reproduction are known.

Acute Toxicity Values: No data is currently available.

Section 12: Ecological Information

Very toxic to aquatic organism, may cause long-term adverse effects in the aquatic environment. Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Incineration or sanitary landfill in accordance with local, provincial and federal regulations. Check with disposal expert to insure compliance

Section 14: Transport Information

Chemical Identification:

UN No. 1169: Liquid aromatic extract.

Packaging Group: III

Class: 3

EINECS:

FEMA:

FDA:

US DOT Shipping Description: Check appropriate authority

IATA Shipping (Air): Check appropriate authority

IMDG Shipping Description: Check appropriate authority

Section 15: Regulatory Information

WHMIS (Canada): N/A

HMIS (USA): Health Hazard - 0 Fire Hazard -3 Reactivity - 0

SARA 302/ SARA 313: None

California Proposition 65: This product does not contain chemical listed per the Safe Drinking Water and Enforcement Act of 1986.

EU Labeling:

R10 Flammable.

Xn R22 Harmful if swallowed.

Xi R38 Irritating to skin

S36/37/38

Wear suitable protective clothing, gloves and eye/face protection.

Disclaimer

Soapgoods it's affiliates and any other officers, directors or employees, agents, third-party content providers, merchants, sponsors, licensors or the like (now referred to as Soapgoods) cannot anticipate all conditions under which this information and its product, or the products of other manufacturers in

combination with its product may be used. It is the user's responsibility to ensure safe conditions for handling, storage and disposal of the product, and to assume liability for loss, injury, damage or expense due to improper use. The information in the sheet was written based on the best knowledge, and experience currently available. You expressly agree that your use of this MSDS is at your sole risk. Soapgoods expressly disclaims all express or implied warranties or merchantability and fitness for a particular purpose, with respect to the product or information provided herein, and shall under no circumstances be liable for incidental or consequential damages.

Do not use the ingredient information and/or ingredient percentages in this MSDS as a product specification. For product specification information refer to a product specification sheet and/or a certificate of analysis.

All information appearing herein is based upon the data obtained from the manufacturer and/or recognized technical sources. While the information is believed to be accurate, Soapgoods makes no representations as to its accuracy or sufficiency. Conditions of use are beyond Soapgoods control and therefore users are responsible to verify this data under their own operating conditions to determine whether the product is suitable for their particular purposes and they assume all risks of their use, handling, and disposal of the product, or from the publication or use of, or reliance upon, information contained herein. This information relates only to the product designated herein, and does not relate to its use in combination with any other material or in any other process.

Review Date: December 2015

Safety Data Sheet

Section 1: Identification

Product Name: Petitgrain Essential Oil (Italy)

Botanical Name: Petitgrain bigarade

Synonyms: Citrus bigaradia, Citrus vulgaris, Citrus aurantium var aurantium

INCI Name: Citrus aurantium amara (orange) leaf oil

CAS #: 8014-17-3

County of Origin: Italy

Company: Soapgoods Inc

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

Section 2: Composition/Information on Ingredients

CAS : 8014-17-3

EINECS : 277-143-2

FEMA : 2855

CoE : 136

Contents: linalyl acetate, linalool, a-terpineol, geranyl acetate, limonene, neryl Limonene ~20% Linalool ~22% Linalil Acetate ~ 42%

Section 3: Hazard(s) Identification

Slightly hazardous.

Medical Information: N/A

Section 4: First-Aid Measures

Eye Contact: Contact with eyes can produce burning sensation. Irrigate with water immediately, continue flushing eyes with water for 15 minutes. Seek medical attention if irritation persists.

Inhalation: Remove to fresh air. Give oxygen if breathing is labored and seek medical advice. Avoid casual breathing. Signs of over exposure are dizziness and nausea.

Ingestion: Rinse mouth; dilute with milk or water and consult a physician immediately. Do not induce vomiting. Never-give anything by mouth if victim is unconscious, is rapidly-losing or is Convulsing.

Skin Contact: Skin contact can produce irritation, or itching of the skin. Remove contaminated clothing Wash with soap and plenty of water. Seek medical attention if irritation persists.

Section 5: Fire-Fighting Measures

Flammable Limits:

Flash Point: 66 °C Combustible liquid. Will ignite if moderately heated.

Extinguishing media: Carbon Dioxide, dry chemical or foam. Closed containers may build up pressure at elevated temperature

Special Procedures: Determine the need to evacuate or isolate the area according to your local emergency plan.

Unusual Firefighting Hazards: None identified.

Protective Equipment: Self-contained breathing apparatus and protective clothing should be worn when fighting fires involving essential oils or chemicals.

Combustion Product: Carbon Monoxide, Carbon Dioxide

Section 6: Accidental Release Measures

Personal Precautions: Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8.

Safety Precautions: Eliminate all ignition sources. Ventilate area. Determine the need to Evacuate or isolate the area according to your local emergency plan.

Environmental Precautions: Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods For Cleaning Up: Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Section 7: Handling and Storage

Handling: Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use.

Storage: Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition. Make sure the material does not come into contact with substances listed as: "Materials to Avoid".

Section 8: Exposure Controls/Personal Protection

Eyes Protection: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended.

Respiratory Protection: In well-ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of "NIOSH" approved respiratory protection normally required (use only if trained in proper use and with acceptable oxygen level).

Protective Gloves: Using chemical resistant gloves is recommended.

Protective Clothing: Using chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained.

Note: These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions.

Section 9: Physical and Chemical Properties

Appearance: Colorless to pale yellow liquid.

Odor: Characteristic floral citrus herbaceous odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.889 - 0.893 @ 20°C

Optical Rotation: -5.0 - +1.0 @ 20°C

Refractive Index: 1.450 - 1.465 @ 20°C

Boiling Point: N/A

Linalool: 20 - 25 % by g.c.

Linalyl Acetate: 45 - 55 % by g.c.

Extraction Method: Steam distillation of the leaves and twigs.

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard.

Conditions to Avoid: Avoid sparks, flame and excessive heat.

Materials to Avoid: Strong oxidizing agents.

Flammability: Combustible liquid.

Hazardous Polymerization: Will not occur. Hazardous Combustion or None known.

Decomposition Products: When heated to decomposition produces acid fumes and carbon monoxide smoke.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin Contact: Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene

Eye Contact: May irritate eyes.

Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting.

Medical Conditions Aggravated by Exposure: May aggravate dermatitis, psoriasis and other skin conditions.

Chronic Toxicity: May cause allergic reactions on skin

Carcinogenicity Data: None of the components of this material are listed as a carcinogen.

Reproductive Toxicity: No adverse effects on reproduction are known.

Acute Toxicity Values: No data is currently available.

Section 12: Ecological Information

Very toxic to aquatic organism, may cause long-term adverse effects in the aquatic environment. Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Incineration or sanitary landfill in accordance with local, provincial and federal regulations. Check with disposal expert to insure compliance

Section 14: Transport Information

Chemical Identification: Oils, petitgrain

UN No. 1169: Liquid aromatic extract.

Packaging Group: III Class: 3

Safety Data Sheet

Section 1: Identification

Product Name: Pine Scotch Oil

Botanical Name: *Pinus sylvestris*

Synonyms: *Pinus rubra*, *Pinus sylvestris* var. *mongolica*, *Pinus densiflora* f. *sylvestriformis*, *Pinus hamata*, *Pinus nigra* f. *pygmaea*, *Pinus sylvestris* f. *nana*, *Pinus nigra* f. *pygmaea*

INCI Name: *Pinus sylvestris* leaf oil

CAS #: 8023-99-2

Country of Origin: Hungary

Company: Soapgoods Inc

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

SECTION: 2. Classification

Chemical Identification: Oils, pine

UN No. 1169: Liquid aromatic extract.

Packaging Group: III

Class: 3

24 HOUR EMERGENCY TELEPHONE NUMBER: (613)-996-6666 CANUTEC

SECTION: 3. Hazardous Ingredients Information

Slightly hazardous.

NFPA and HMIS rating: Health 2; Fire 3; Reactivity 0

R11 Flammable

R21/22 harmful by inhalation and contact with skin

R36/38 Irritating to skin and eyes R43 may cause sensitization

Section 4: Physical and Chemical Properties

Appearance: Colorless to pale yellow liquid.

Odor: Characteristic pine odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.857 - 0.885 @ 20°C

Refractive Index: 1.465 - 1.479 @ 20°C

Optical Rotation: -4.0 - +10 @ 20°C

a-Pinene: 30 - 35 %

Limonene: 15 - 20 %

β-Pinene: 12 - 17 %

d-3-Carene: 10 - 15 %

Extraction Method: Steam distillation of pine needles.

Contents: Bornyl acetate, myrcene, limonene, alpha pinene, beta pinene, cadinol, carene, camphene, muurolene, caryophyllene, cadinene, sabinene

Flash Point: 42 °C

Section 5: Fire-Fighting Measures

Flash Point: 42 °C Flammable liquid. Will ignite if moderately heated.

Section 6: Stability and Reactivity

Reactivity: Stable.

Decomposition: When heated to decomposition produces toxic fumes/carbon monoxide smoke.

Section 7: Toxicological Information/Information

Liquid may irritate eyes and skin. May cause dermatitis/sensitization dermatological reaction through repeated contact. Avoid use during pregnancy.

Section 8: Exposure Controls/Personal Protection

Spillage: Absorb spills, cover with an inert, non-combustible, inorganic absorbent material, and remove to an approved disposal container.

Fire: Recommended extinguishing media - CO₂, foam and dry chemicals. DO NOT use direct water jet on burning material.

Environment: Keep away from drains, surface and ground water.

Storage: Store in cool, dry and well ventilated area protected in tightly closed container away from sources of ignition, heat and sunlight. Keep air contact to minimum.

Section 9: First-Aid Measures

Eye contact: Flush with water for at least 15 minutes. Call physician if irritation persists.

Inhalation: Remove to fresh air. Avoid casual breathing.

Ingestion: Rinse mouth and consult a physician immediately. Never-give anything by mouth if victim is unconscious, is rapidly-losing consciousness, or is convulsing.

Skin contact: Remove contaminated clothing. Wash with soap and plenty of water.

Section 11: Exposure Controls/Personal Protection

Use safety glasses.

Avoid breathing in product by ensuring good ventilation when handling.

Avoid skin contact by using chemical resistant gloves.

SECTION: 12. OTHER INFORMATION

Section 16: Other Information

Review Date: December 2015

Safety Data Sheet

Section 1: Identification

Product Name: Ravensara Oil

Botanical Name: Ravensara aromatica

Synonyms: Agathophyllum Ravensara, Agathophyllum aromaticum

INCI Name: Ravensara aromatica (leaf) oil

CAS #: n/a

County of Origin: Madagascar

Company: Soapgoods Inc

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

SECTION: 2. Classification

Chemical Identification: Oils, ravensara

UN No. 1169: Liquid aromatic extract.

Packaging Group: III

Class: 3

CTFA Monograph ID 19532

24 HOUR EMERGENCY TELEPHONE NUMBER: (613)-996-6666 CANUTEC

SECTION: 3. Hazardous Ingredients Information

N/A

Section 4: Physical and Chemical Properties

Appearance: Colorless to pale yellow liquid.

Odor: Characteristic spicy liquorice-like odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.882 - 0.905 @ 20°C

Optical Rotation: -36.5 - -20.5 @ 20°C

Refractive Index: 1.484 - 1.492 @ 20°C

Sabinene: 8.0 - 16

Limonene: 14 - 21

Methyl Chavicol: 86 - 94

Methyl Eugenol: 5.0 - 17

Extraction Method: Steam distillation of the leaves.

Contents: Pinene, sabinene, myrcene, limonene, linalool, methyl chavicol, methyl eugenol, caryophyllene.

Flash Point: 47 °C

Section 5: Fire-Fighting Measures

Flash Point: 47 °C Combustible liquid. Will ignite if moderately heated.

Section 6: Stability and Reactivity

Reactivity: Stable.

Decomposition: Essential oils are naturally high in volatile organic compounds (VOCs). When heated to decomposition, the smoke from burning essential oils may contain potential carcinogens, such as polycyclic aromatic hydrocarbons (PAHs).

Section 7: Toxicological Information/Information

It may cause sensitivity on some individuals. Ravensara should be avoided during pregnancy.

Section 8: Exposure Controls/Personal Protection

Spillage: Absorb spills, cover with an inert, non-combustible, inorganic absorbent material, and remove to an approved disposal container.

Fire: Recommended extinguishing media - CO₂, foam and dry chemicals. DO NOT use direct water jet on burning material.

Environment: Keep away from drains, surface and ground water.

Storage: Store in cool, dry and well ventilated area protected in tightly closed container away from sources of ignition, heat and sunlight. Keep air contact to minimum.

Section 9: First-Aid Measures

Eye contact: Flush with water for at least 15 minutes. Call physician if irritation persists.

Inhalation: Remove to fresh air. Avoid casual breathing.

Ingestion: Rinse mouth and consult a physician immediately. Never-give anything by mouth if victim is unconscious, is rapidly-losing consciousness, or is convulsing.

Skin contact: Remove contaminated clothing. Wash with soap and plenty of water.

Section 11: Exposure Controls/Personal Protection

Use safety glasses. Avoid breathing in product by ensuring good ventilation when handling. Avoid skin contact by using chemical resistant gloves.

Section 16: Other Information

Review Date: December 2015

Safety Data Sheet

Section 1: Identification

Product Name: Rosalina Australia Essential Oil

Botanical Name: Melaleuca ericifolia

Synonyms: Kajuputi ericifolia

INCI Name: Melaleuca ericifolia leaf oil
CAS #: 8022-72-8
Country of Origin: Australia
Company: Soapgoods Inc
Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093
Phone: (404) 924-9080
E-Mail: wecare@soapgoods.com
Emergency Phone: Chemtrec: 1-800-424-9300
Recommended Use: Personal Care

Section 2: Composition/Information on Ingredients

Content: 1,8-cineole, α -pinene, β -pinene, p-cymene, limonene, terpinene, terpinolene, linalool, terpinenol, aromadendrene, viridiflorene 1,8-Ci eol: 20 - 30% Linalool: 35 - 55% α -Pinene: 7 - 12 %

Section 3: Hazard(s) Identification

Medical Information: N/A

Section 4: First-Aid Measures

Eye Contact: Contact with eyes can produce burning sensation. Irrigate with water immediately, continue flushing eyes with water for 15 minutes. Seek medical attention if irritation persists.

Inhalation: Remove to fresh air. Give oxygen if breathing is labored and seek medical advice. Avoid casual breathing. Signs of over exposure are dizziness and nausea.

Ingestion: Rinse mouth; dilute with milk or water and consult a physician immediately. Do not induce vomiting. Never-give anything by mouth if victim is unconscious, is rapidly-losing or is Convulsing.

Skin Contact: Skin contact can produce irritation, or itching of the skin. Remove contaminated clothing Wash with soap and plenty of water. Seek medical attention if irritation persists..

Section 5: Fire-Fighting Measures

Flammable Limits:

Flash Point: 43 °C Combustible liquid. Will ignite if moderately heated.

Extinguishing media: Carbon Dioxide, dry chemical or foam. Closed containers may build up pressure at elevated temperature

Special Procedures: Determine the need to evacuate or isolate the area according to your local emergency plan.

Unusual Firefighting Hazards: None identified.

Protective Equipment: Self-contained breathing apparatus and protective clothing should be worn when fighting fires involving essential oils or chemicals.

Combustion Product: Carbon Monoxide, Carbon Dioxide

Section 6: Accidental Release Measures

Personal Precautions: Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8.

Safety Precautions: Eliminate all ignition sources. Ventilate area. Determine the need to Evacuate or isolate the area according to your local emergency plan.

Environmental Precautions: Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods For Cleaning Up: Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Section 7: Handling and Storage

Handling: Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use.

Storage: Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition Make sure the material does not come into contact with substances listed as: "Materials to Avoid".

Section 8: Exposure Controls/Personal Protection

Eyes Protection: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended

Respiratory Protection: In well- ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of "NIOSH" approved respiratory protection normally required (use only if trained in proper use and with acceptable oxygen level).

Protective Gloves: Use of chemical resistant gloves is recommended.

Protective Clothing: Use of chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained.

Note: These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions

Section 9: Physical and Chemical Properties

Appearance: Colorless to pale yellow liquid.

Odor: Characteristic woody, floral camphorous odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.877 - 0.878 @ 20°C

Optical Rotation: -15.0 - 10 @ 20°C

Refractive Index: 1.463 - 1.465 @ 20°C

Extraction Method: Steam distillation of the leaves and terminal branches.

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard.

Conditions to Avoid: Avoid sparks, flame and excessive heat.

Materials to Avoid: Strong oxidizing agents.

Flammability: Combustible liquid.

Hazardous Polymerization: Will not occur. Hazardous Combustion or None known.

Decomposition Products: When heated to decomposition produces toxic fumes/carbon monoxide smoke.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin Contact: May be irritating to skin in certain individuals.

Eye Contact: May irritate eyes.

Medical Conditions Aggravated by Exposure: May aggravate dermatitis, psoriasis and other skin conditions.

Chronic Toxicity: May cause allergic reactions on skin

Carcinogenicity Data: None of the components of this material are listed as a carcinogen.

Reproductive Toxicity: No adverse effects on reproduction are known.

Acute Toxicity Values: No data is currently available.

Section 12: Ecological Information

Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Dispose of in accordance with local, state or provincial and federal regulations. Check with disposal expert to insure compliance

Section 14: Transport Information

Chemical Identification: Oil, rosalina

UN No. 1169: Liquid aromatic extracts

Packaging Group: III Class: 3

US DOT Shipping Description: Check appropriate authority

IATA Shipping (Air): Check appropriate authority

IMDG Shipping Description: Check appropriate authority

Section 15: Regulatory Information

WHMIS (Canada): Check with appropriate authorities.

HMIS (USA): Check with appropriate authorities.

Section 16: Other Information

Safety Data Sheet

Section 1: Identification

Product Name: Rose Absolute (Bulgarian)

Botanical Name: Rosa damascena

INCI Name: Rosa damascena flower oil

CAS #: 8007-01-0 (283-289-8 CAS# EU)

Country of Origin: Bulgaria

Company: Soapgoods Inc

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

Section 2: Composition/Information on Ingredients

Name CAS# % by Weight

Rose Absolute 8007-01-0 100.0

Section 3: Hazard(s) Identification

None known

Medical Information: N/A

Section 4: First-Aid Measures

Eye Contact: Contact with eyes can produce burning sensation. Irrigate with water immediately, continue flushing eyes with water for 15 minutes. Seek medical attention if irritation persists.

Inhalation: Remove to fresh air. Give oxygen if breathing is labored and seek medical advice. Avoid casual breathing. Signs of over exposure are dizziness and nausea.

Ingestion: Rinse mouth; dilute with milk or water and consult a physician immediately. Do not induce vomiting. Never-give anything by mouth if victim is unconscious, is rapidly-losing or is convulsing.

Skin Contact: Skin contact can produce irritation, or itching of the skin. Remove contaminated clothing Wash with soap and plenty of water. Seek medical attention if irritation persists.

Section 5: Fire-Fighting Measures

Flash Point: 97°C Combustible liquid.

Extinguishing media: Carbon dioxide, dry chemical or foam. Closed containers may build up pressure at elevated temperature

Special Procedures: Determine the need to evacuate or isolate the area according to your local emergency plan.

Firefighting Hazards: None identified.

Protective Equipment: Self-contained breathing apparatus and protective clothing should be worn when fighting fires involving essential oils or chemicals.

Combustion Product: Carbon monoxide, Carbon dioxide

Section 6: Accidental Release Measures

Personal Precautions: Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8.

Safety Precautions: Eliminate all ignition sources. Ventilate area. Determine the need to evacuate or isolate the area according to your local emergency plan.

Environmental Precautions: Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods For Cleaning Up: Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Section 7: Handling and Storage

Handling: Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use.

Storage: Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition. Make sure the material does not come into contact with substances listed as:"Materials to Avoid".

Section 8: Exposure Controls/Personal Protection

Eyes Protection: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended

Respiratory Protection: In well-ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of "NIOSH" approved respiratory protection normally required (use only if trained in proper use and with acceptable oxygen level).

Protective Gloves: Using chemical resistant gloves is recommended.

Protective Clothing: Using chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained.

Section 9: Physical and Chemical Properties

Appearance: Reddish orange liquid.

Odor: Characteristic rosy odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.970 - 0.995

Refractive Index: 1.505 - 1.520

Residual Solvent: <2%

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard.

Conditions to Avoid: Avoid sparks, flame and excessive heat.

Materials to Avoid: Strong oxidizing agents.

Flammability: Combustible liquid.

Hazardous Polymerization: Will not occur. Hazardous Combustion or None known.

Decomposition Products: When heated to decomposition produces acid fumes and carbon monoxide smoke.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat.

Skin Contact: Repeated or prolonged contact may cause redness, irritation of skin. Adverse skin effects should be prevented by normal care and personal hygiene.

Eye Contact: May irritate eyes.

Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting. Medical Conditions Aggravated

by Exposure: May aggravate dermatitis, psoriasis and other skin conditions.

Chronic Toxicity: May cause allergic reactions on skin; no information is available.

Carcinogenicity Data: None of the components of this material are listed as a carcinogen.

Reproductive Toxicity: No adverse effects on reproduction are known.

Acute Toxicity Values: No data is currently available.

Section 12: Ecological Information

No information on biodegradability found. May be toxic to aquatic organism; may cause long-term adverse effects in the aquatic environment. Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Incineration or sanitary landfill in accordance with local, provincial and federal regulations. Check with disposal expert to insure compliance

Section 14: Transport Information

Chemical Identification:

UN No. 1169: Extracts, Aromatic, Liquid

Packaging Group: III Class: 3

EINECS: 84604-12-6

FEMA: 2988

FDA: N/A

US DOT Shipping Description: Check appropriate authority

IATA Shipping (Air): Check appropriate authority

IMDG Shipping Description: Check appropriate authority

Section 15: Regulatory Information

WHMIS (Canada): N/A

HMIS (USA): Health Hazard - N/A Fire Hazard - N/A Reactivity - N/A

EU Labeling:

Risk Phrase: Hazards: Irritant

Symbols: Xi

R52/53 Harmful to aquatic organisms, may cause long term adverse effects in the aquatic environment.

R36 Irritating to eyes.

Safety Phrase: R43 May cause sensitization by skin.

S24/25 Avoid contact with skin and eyes.

R37 Wear suitable gloves.

Section 16: Other Information

Disclaimer

Soapgoods it's affiliates and any other officers, directors or employees, agents, third-party content providers, merchants, sponsors, licensors or the like (now referred to as Soapgoods) cannot anticipate all conditions under which this information and its product, or the products of other manufacturers in combination with its product may be used. Review Date: December 2015

Safety Data Sheet

Section 1: Identification

Product Name: Rose Geranium Oil South African

Botanical Name: Pelargonium capitatum x radens

Synonyms: Geranium terebinthinaceum, Pelargonium terebinthinaceum, Geranium oil, African

INCI Name: Pelargonium graveolens flower oil

CAS #: 8000-46-2

County of Origin: South Africa

Company: Soapgoods Inc

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

SECTION: 2. Classification

Chemical Identification: Oils, rose geranium

EINEC#: 290-140-0 **FEMA#:** 2508

24 HOUR EMERGENCY TELEPHONE NUMBER: (613)-996-6666 CANUTEC

SECTION: 3. Hazardous Ingredients Information

N/A

Section 4: Physical and Chemical Properties

Appearance: Pale yellow to greenish olive liquid.

Odor: Characteristic minty, rose-like odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.870 - 0.899 @ 20°C

Optical Rotation: -10.0 - -2.0 @ 20°C

Refractive Index: 1.461 - 1.470 @ 20°C

Citronellol: 16 - 29 %

Geraniol: 10 - 25 %

Linalool: 4 - 8 %

Extraction Method: Steam distillation of the leaves and flowers.

Contents: Citronellol, geraniol, linalool, Isomenthone, Citronellyl formate, geranyl formate, guaiadiene, caryophyllene, rose oxide, geranyl butyrate, geranyl tiglate, 10-epi-g-eudesmol.

Flash Point: 156 °F (69 deg. C)

Section 5: Fire-Fighting Measures

Flash Point: 69 °C (156 deg.F)

Combustible liquid. Will ignite if overheated.

Section 6: Stability and Reactivity

Reactivity: Stable.

Decomposition: Essential oils are naturally high in volatile organic compounds (VOCs). When heated to decomposition, the smoke from burning essential oils may contain potential carcinogens, such as polycyclic aromatic hydrocarbons (PAHs).

Section 7: Toxicological Information/Information

It may cause sensitivity on some individuals. Because it is reputed to balance the hormonal system, it is advised that geranium be avoided during pregnancy.

Section 8: Exposure Controls/Personal Protection

Spillage: Absorb spills, cover with an inert, non-combustible, inorganic absorbent material, and remove to an approved disposal container.

Fire: Recommended extinguishing media - CO₂, foam and dry chemicals. DO NOT use direct water jet on burning material.

Environment: Keep away from drains, surface and ground water.

Storage: Store in cool, dry and well ventilated area protected in tightly closed container away from sources of ignition, heat and sunlight. Keep air contact to minimum.

Section 9: First-Aid Measures

Eye contact: Flush with water for at least 15 minutes. Call physician if irritation persists.

Inhalation: Remove to fresh air. Avoid casual breathing.

Ingestion: Rinse mouth and consult a physician immediately. Never-give anything by mouth if victim is unconscious, is rapidly-losing consciousness, or is convulsing.

Skin contact: Remove contaminated clothing. Wash with soap and plenty of water.

SECTION: 10. Individual Protection for Industrial Use

Use safety glasses.

Avoid breathing in product by ensuring good ventilation when handling.

Avoid skin contact by using chemical resistant gloves.

Section 16: Other Information

Safety Data Sheet

Section 1: Identification

Product Name: Rosemary Essential Oil - Spanish

Botanical Name: Rosmarinus officinalis L.

Synonyms: Rosmarinus officinalis c.t. cineole

INCI Name: Rosmarinus officinalis (rosemary) leaf oil

CAS #: 8000-25-7

Country of Origin: Spain

Company: Soapgoods Inc

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

Section 2: Composition/Information on Ingredients

Contents: a-Pinene: 25 - 35%; 1,8-Cineol: 10 - 30%; Camphor: 10 - 35%

Section 3: Hazard(s) Identification Slightly hazardous.

Medical Information: N/A

Section 4: First-Aid Measures

Eye Contact: Rinse with water immediately; continue flushing eyes with water for 15 minutes. Seek medical attention if irritation persists. Symptoms of exposure irritation and reddening.

Inhalation: Remove to fresh air. Give oxygen if breathing is labored and seek medical advice. Symptoms of exposure are choking, drowsiness, respiratory disruption.

Ingestion: Rinse mouth; dilute with water and consult a physician immediately. Do not induce vomiting. Never-give anything by mouth if victim is unconscious, is rapidly-losing or is convulsing. Symptoms of exposure queasiness and stomach aches.

Skin Contact: Remove contaminated clothing wash with soap and plenty of water. Seek medical attention if irritation persists. Symptoms of exposure irritation and stinging.

Section 5: Fire-Fighting Measures

Flash Point: 43 °C

Extinguishing media: Carbon Dioxide or foam.

Special Procedures: Determine the need to evacuate or isolate the area according to your local emergency plan.

Firefighting Hazards: Closed containers may build up pressure at elevated temperatures. Avoid inhalation of any fumes or vapors generated.

Protective Equipment: Self-contained breathing apparatus and protective clothing should be worn when fighting fires involving essential oils or chemicals. Combustion Product: Carbon Monoxide, Carbon Dioxide

Section 6: Accidental Release Measures

Personal Precautions: Use of self-contained breathing apparatus is recommended for any major chemical

spill. Refer also to section 8.

Safety Precautions: Do NOT smoke and do not expose to product to live flames or any ignition source. Ventilate area. Determine the need to evacuate or isolate the area according to your local emergency plan.

Environmental Precautions: Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods For Cleaning Up: Contain and collect with inert absorbent material and place in covered container for disposal using non-sparking tools. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Section 7: Handling and Storage

Handling: Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use.

Storage: Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition. Make sure the material does not come into contact with substances listed as:"Materials to Avoid" in Section 10.

Section 8: Exposure Controls/Personal Protection

Eyes Protection: The use of chemical safety goggles is recommended. Wash contaminated goggles before re-use.

Respiratory Protection: Use personal breathing apparatus whenever necessary.

Protective Gloves: Using chemical resistant gloves is recommended.

Protective Clothing: Using chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area. The areas where the product is handled and stored should be adequately ventilated.

Note: These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions

Section 9: Physical and Chemical Properties

Appearance: Colorless to pale yellow liquid.

Odor: Characteristic aromatic herbaceous odor.

Boiling Point: 150 - 250°C

Solubility: Soluble in alcohol and oils. Insoluble in water.

Density: 0.8920 - 0.9100 g/cm³ @ 20°C

Refractive Index: 1.460 - 1.480 @ 20°C

Extraction Method: Steam distillation of the herb.

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard.

Conditions to Avoid: Avoid sparks, flame and excessive heat.

Materials to Avoid: Strong oxidizing agents.

Flammability: Combustible liquid.

Hazardous Polymerization: Will not occur. Hazardous Combustion or Carbon monoxide and other unidentified organic compounds may be

Decomposition Products: formed upon combustion.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin Contact: Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene

Eye Contact: May irritate eyes.

Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting. Medical Conditions Aggravated

by Exposure: May aggravate dermatitis, psoriasis and other skin conditions.

Chronic Toxicity: May cause allergic reactions on skin

Carcinogenicity Data: None of the components of this material are listed as a carcinogen.

Reproductive Toxicity: No adverse effects on reproduction are known.

Acute Toxicity Values: No data is currently available.

Section 12: Ecological Information

May be very toxic to aquatic organism; may cause long-term adverse effects in the aquatic environment. Do not allow entry of material into ground, surface or underground waterways.

Section 13: Disposal Considerations

Container disposal: Do not re-use empty containers. Empty residue into a suitable disposal site. Dispose of in accordance with local, provincial and federal regulations. Check with disposal expert to insure compliance.

Section 14: Transport Information

Chemical Identification:

UN No. UN1169

Proper Shipping Name: Extracts, Aromatic Liquids

Packaging Group: III Class: 3

Note: Toxicology properties of this material are not fully investigated.

Section 4: First-Aid Measures

Eye Contact: Contact with eyes can produce burning sensation. Irrigate with water immediately, continue flushing eyes with water for 15 minutes. Seek medical attention if irritation persists.

Inhalation: Remove to fresh air. Give oxygen if breathing is labored and seek medical advice. Avoid casual breathing.

Ingestion: Rinse mouth; dilute with milk or water and consult a physician immediately. Do not induce vomiting. Never-give anything by mouth if victim is unconscious, is rapidly losing or is convulsing.

Skin Contact: Skin contact can produce irritation, or itching of the skin. Remove contaminated clothing. Wash with soap and plenty of water. Seek medical attention if irritation persists.

Section 5: Fire-Fighting Measures

Flash Point: 51 °C; Combustible liquid. Will ignite if moderately heated.

Extinguishing media: Carbon Dioxide, dry chemical or foam. Closed containers may build up pressure at elevated temperature

Special Procedures: Determine the need to evacuate or isolate the area according to your local emergency plan.

Unusual Firefighting Hazards: None identified.

Protective Equipment: Self-contained breathing apparatus and protective clothing should be worn when fighting fires involving essential oils or chemicals.

Combustion Product: Carbon Monoxide, Carbon Dioxide

Section 6: Accidental Release Measures

Personal Precautions: Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8.

Safety Precautions: Eliminate all ignition sources. Ventilate area. Determine the need to Evacuate or isolate the area according to your local emergency plan.

Environmental Precautions: Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods For Cleaning Up: Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Section 7: Handling and Storage

Handling: Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use. **Storage:** Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition. Make sure the material does not come into contact with substances listed as: "Materials to Avoid".

Section 8: Exposure Controls/Personal Protection

Eyes Protection: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended

Respiratory Protection: In well- ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of "NIOSH" approved respiratory protection normally required (use only if trained in proper use and with acceptable oxygen level).

Protective Gloves: Using chemical resistant gloves is recommended.

Protective Clothing: Using chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained.

Note: These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions

Section 9: Physical and Chemical Properties

Appearance: Pale yellow to greenish yellow liquid.

Odor: Characteristic odor.

Solubility: Partially soluble in alcohol. Insoluble in water.

Specific Gravity: 0.890 - 0.930 @ 20°C

Optical Rotation: +2.0 ± 30 @ 20°C

Refractive Index: 1.457 - 1.479 @ 20°C

Extraction Method: Steam distillation of the dried leaves.

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard. Conditions to Avoid: Avoid sparks, flame and excessive heat. Materials to Avoid: Strong oxidizing agents.

Flammability: Combustible liquid.

Hazardous Polymerization: Will not occur. Hazardous Combustion or None known.

Decomposition Products: When heated to decomposition produces acid fumes and carbon monoxide smoke.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin Contact: Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene

Eye Contact: May irritate eyes.

Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting.

Medical Conditions Aggravated by Exposure: May aggravate dermatitis, psoriasis and other skin conditions.

Chronic Toxicity: May cause allergic reactions on skin

Carcinogenicity Data: None of the components of this material are listed as a carcinogen.

Reproductive Toxicity: No adverse effects on reproduction are known.

Acute Toxicity Values: No data is currently available.

Section 12: Ecological Information

Very toxic to aquatic organism may cause long-term adverse effects in the aquatic environment. Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Incineration or sanitary landfill in accordance with local, provincial and federal regulations. Check with disposal expert to insure compliance

Section 14: Transport Information

US Shipping Description: Check appropriate authority

Shipping Name: UN No. Hazard Class Packing Group EINECS# FEMA # Sage officinalis Oil 1197 3 III
282-025-9 3001

Section 15: Regulatory Information

WHMIS (Canada): N/A

HMIS (USA): Health Hazard -2 Fire Hazard - 2 Reactivity - 0

EU: R36/38 Irritating to eyes and skin.

R65 Harmful: may cause lung damage if swallowed.

R43 May cause sensitization by skin contact.

S26 In case of contact with eyes, rinse immediately and seek medical advise

S36 Wear suitable protective clothing.

S65 If swallowed, do not induce vomiting: seek medical advice and show label.

Section 16: Other Information

Disclaimer

Safety Data Sheet

Section 1: Identification

Product Name: Sandalwood Oil - Africa

Botanical Name: *Osyris lanceolata*

Synonyms: *O. compressa*

INCI Name: *Osyris lanceolata* (sandalwood) oil

CAS #: 8006-87-9

County of Origin: Tanzania
Company: Soapgoods Inc
Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093
Phone: (404) 924-9080
E-Mail: wecare@soapgoods.com
Emergency Phone: Chemtrec: 1-800-424-9300
Recommended Use: Personal Care

SECTION: 2. Classification

Chemical Identification: Oil, sandalwood
UN No. 2319: Terpene hydrocarbons, n.o.s. Packaging Group: III Class: 3
24 HOUR EMERGENCY TELEPHONE NUMBER: (613)-996-6666 CANUTEC

SECTION: 3. Hazardous Ingredients Information

None.

Section 4: Physical and Chemical Properties

Appearance: Pale yellow to golden yellow clear liquid.
Odor: Characteristic exotic woody odor.
Solubility: Soluble in alcohol and oils. Insoluble in water.
Specific Gravity: 0.960 - 0.980 @ 20°C
Santalol: 50 - 70 %
Santalyl Acetate: 3 - 4 %
Extraction Method: Steam distillation of the heart wood.
Contents: β -Bisabolol, α -cis-santalol, cis-bergamotol, cis-lanceol, trans-nuciferol epi-cis-santalol, β -cis-santalol, cis-nuciferol, trans- β -santalol
Flash Point: >75 °C

Section 5: Fire-Fighting Measures

Flash Point: >75 °C Combustible liquid. Will ignite if moderately heated.

Section 6: Stability and Reactivity

Reactivity: Stable.
Decomposition: When heated to decomposition produces toxic and carbon monoxide smoke.

Section 7: Toxicological Information/Information

None known.

Section 8: Exposure Controls/Personal Protection

Spillage: Absorb spills, cover with an inert, non-combustible, inorganic absorbent material, and remove to an approved disposal container.

Fire: Recommended extinguishing media - CO₂, foam and dry chemicals. DO NOT use direct water jet on burning material.

Environment: Keep away from drains, surface and ground water.

Storage: Store in cool, dry and well ventilated area protected in tightly closed container away from sources of ignition, heat and sunlight. Keep air contact to minimum.

Section 9: First-Aid Measures

Eye contact: Flush with water for at least 15 minutes. Call physician if irritation persists.

Inhalation: Remove to fresh air. Avoid casual breathing.

Ingestion: Rinse mouth and consult a physician immediately. Never-give anything by mouth if victim is unconscious, is rapidly-losing consciousness, or is convulsing.

Skin contact: Remove contaminated clothing. Wash with soap and plenty of water.

SECTION: 11. Individual Protection (For Industrial and Bulk Container Use)

Use safety glasses.

Avoid breathing in product by ensuring good ventilation when handling.

Avoid skin contact by using chemical resistant gloves.

Section 16: Other Information

Review Date: December 2015

Safety Data Sheet

Section 1: Identification

Product Name: Sandalwood East Indian Essential Oil

Synonyms: Santalum album Linn

INCI Name: Santalum album (sandalwood) oil

CAS #: 8006-87-9

County of Origin: India

Company: Soapgoods Inc

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

Section 2: Composition/Information on Ingredients

Contents: Santalol acetate 3%, Santalol 91.0%

Section 3: Hazard(s) Identification

N/A

Medical Information: N/A

Section 4: First-Aid Measures

Eye Contact: Contact with eyes can produce burning sensation. Irrigate with water immediately, continue flushing eyes with water for 15 minutes. Seek medical attention if irritation persists.

Inhalation: Remove to fresh air. Give oxygen if breathing is labored and seek medical advice. Avoid casual breathing. Signs of over exposure are dizziness and nausea.

Ingestion: Rinse mouth; dilute with milk or water and consult a physician immediately. Do not induce vomiting. Never-give anything by mouth if victim is unconscious, is rapidly losing or is convulsing.

Skin Contact: Skin contact can produce irritation, or itching of the skin. Remove contaminated clothing Wash with soap and plenty of water. Seek medical attention if irritation persists.

Section 5: Fire-Fighting Measures

Flash Point: >200 °C Combustible liquid. Will ignite if moderately heated.

Extinguishing media: Carbon Dioxide, dry chemical or foam. Closed containers may build up pressure at elevated temperature

Special Procedures: Determine the need to evacuate or isolate the area according to your local emergency plan.

Unusual Firefighting Hazards: None identified.

Protective Equipment: Self-contained breathing apparatus and protective clothing should be worn when fighting fires involving essential oils or chemicals.

Combustion Product: Carbon Monoxide, Carbon Dioxide

Section 6: Accidental Release Measures

Personal Precautions: Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8. **Safety Precautions:** Eliminate all ignition sources. Ventilate area. Determine the need to evacuate or isolate the area according to your local emergency plan.

Environmental Precautions: Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods For Cleaning Up: Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Section 7: Handling and Storage

Handling: Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use.

Storage: Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition. Make sure the material does not come into contact with substances listed as: "Materials to Avoid".

Section 8: Exposure Controls/Personal Protection

Eyes Protection: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended
Respiratory Protection: In well-ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of "NIOSH" approved respiratory protection normally required (use only if trained in proper use and with acceptable oxygen level).

Protective Gloves: Using chemical resistant gloves is recommended.

Protective Clothing: Using chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained.

Note: These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions

Section 9: Physical and Chemical Properties

Appearance: Golden yellow to pale yellow viscous liquid.

Odor: Characteristic warm, faint woody, balsamic.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.960 - 0.990 @ 20°C

Optical Rotation: -20.0 - -18.0 @ 20°C

Refractive Index: 1.501 - 1.570 @ 20°C

Extraction Method: Steam distillation of the heart wood of santalum album.

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard.

Conditions to Avoid: Avoid sparks, flame and excessive heat.

Materials to Avoid: Strong oxidizing agents.

Flammability: Combustible liquid.

Hazardous Polymerization: Will not occur. Hazardous Combustion or None known.

Decomposition Products: When heated to decomposition produces acid fumes and carbon monoxide smoke.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness. **Skin Contact:** Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene

Eye Contact: May irritate eyes.

Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting.

Medical Conditions Aggravated by Exposure: May aggravate dermatitis, psoriasis and other skin

conditions.

Chronic Toxicity: May cause allergic reactions on skin

Carcinogenicity Data: None of the components of this material are listed as a carcinogen.

Reproductive Toxicity: No adverse effects on reproduction are known.

Acute Toxicity Values: No data is currently available.

Section 12: Ecological Information

Possibly toxic to aquatic organism; may cause long-term adverse effects in the aquatic environment. Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Incineration or sanitary landfill in accordance with local, provincial and federal regulations. Check with disposal expert to insure compliance.

Section 14: Transport Information

Chemical Identification:

UN No. 1169: Extracts, Aromatics Liquids.

Packaging Group: III Class: 3

EINECS: N/A **FEMA:** N/A

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

SECTION: 2. Classification

Chemical Identification: Oil, savory

UN No. 2319: Terpene hydrocarbons, n.o.s.

Packaging Group: III

Class: 3 24 HOUR EMERGENCY TELEPHONE NUMBER: (613)-996-6666 CANUTEC

SECTION: 3. Hazardous Ingredients Information

Carvacrol.

Section 4: Physical and Chemical Properties

Appearance: Yellow to orange color liquid.

Odor: Characteristic sharp herbaceous medicinal odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.910 - 0.920 @ 20°C

Optical Rotation: -10.0 - +1.0 @ 20°C

Refractive Index: 1.490 - 1.510 @ 20°C

Carvacrol: 30 - 45 %

p-Cymene: 10 - 30 %

?-Terpineol: 2.0 - 10 %

Thymol: 1.0 - 5.0 %

Extraction Method: Steam distillation of the flowering tops.

Contents: carvacrol, thymol, p-cymene, ?-terpinene, α -pinene, dipentene, borneol, l-linalool, ?-terpineol, 1-carvone, α -terpineol, 1,8-cineole

Flash Point: 65 °C

Section 5: Fire-Fighting Measures

Flash Point: 65 °C

Flammable liquid. Will ignite if moderately heated.

Section 6: Stability and Reactivity

Reactivity: Stable.

Decomposition: When heated to decomposition produces toxic and carbon monoxide smoke.

Section 7: Toxicological Information/Information

Savory is a severe dermal and mucus membrane irritant - avoid contact with skin. Avoid use if pregnant.

Carvacrol: ORAL (rat), LD50 = 0.81g/kg

Section 8: Exposure Controls/Personal Protection

Spillage: Absorb spills, cover with an inert, non-combustible, inorganic absorbent material, and remove to an approved disposal container.

Fire: Recommended extinguishing media - CO₂, foam and dry chemicals. DO NOT use direct water jet on burning material.

Environment: Keep away from drains, surface and ground water.

Storage: Store in cool, dry and well ventilated area protected in tightly closed container away from sources of ignition, heat and sunlight. Keep air contact to minimum.

Section 9: First-Aid Measures

Eye contact: Flush with water for at least 15 minutes. Call physician if irritation persists.

Inhalation: Remove to fresh air. Avoid casual breathing.

Ingestion: Rinse mouth and consult a physician immediately. Never-give anything by mouth if victim is unconscious, is rapidly-losing consciousness, or is convulsing.

Skin contact: Remove contaminated clothing. Wash with soap and plenty of water.

SECTION: 11. Individual Protection

Use safety glasses.

Avoid breathing in product by ensuring good ventilation when handling.

Avoid skin contact by using chemical resistant gloves.

SECTION: 12. OTHER INFORMATION

Section 16: Other Information

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

Section 2: Composition/Information on Ingredients

Contents: Carvone, cineol, linalool, pinene, caryophyllene, myrcene, limonene, menthol, dihydrocarvone, menthone, pulegone, octan-3-ol.

Carvone: Min. 60 % **Limonene:** Max. 25 %

Section 3: Hazard(s) Identification

N/A

Medical Information: N/A

Section 4: First-Aid Measures

Eye Contact: Contact with eyes can produce burning sensation. Irrigate with water immediately, continue flushing eyes with water for 15 minutes. Seek medical attention if irritation persists.

Inhalation: Remove to fresh air. Give oxygen if breathing is labored and seek medical advice. Avoid casual breathing. Signs of over exposure are dizziness and nausea.

Ingestion: Rinse mouth; dilute with milk or water and consult a physician immediately. Do not induce vomiting. Never-give anything by mouth if victim is unconscious, is rapidly losing or is Convulsing.

Skin Contact: Skin contact can produce irritation, or itching of the skin. Remove contaminated clothing Wash with soap and plenty of water. Seek medical attention if irritation persists.

Section 5: Fire-Fighting Measures

Flash Point: 61°C Combustible liquid. Will ignite if moderately heated.

Extinguishing media: Carbon Dioxide, dry chemical or foam. Closed containers may build up pressure at elevated temperature

Special Procedures: Determine the need to evacuate or isolate the area according to your local emergency plan.

Unusual Firefighting Hazards: None identified.

Protective Equipment: Self-contained breathing apparatus and protective clothing should be worn when fighting fires involving essential oils or chemicals.

Combustion Product: Carbon Monoxide, Carbon Dioxide

Section 6: Accidental Release Measures

Personal Precautions: Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8.

Safety Precautions: Eliminate all ignition sources. Ventilate area. Determine the need to evacuate or isolate the area according to your local emergency plan. Environmental Precautions: Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods For Cleaning Up: Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Section 7: Handling and Storage

Handling: Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use.

Storage: Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition.

Make sure the material does not come into contact with substances listed as: "Materials to Avoid".

Section 8: Exposure Controls/Personal Protection

Eyes Protection: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended

Respiratory Protection: In well- ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of "NIOSH" approved respiratory protection normally required (use only if trained in proper use and with acceptable oxygen level).

Protective Gloves: Using chemical resistant gloves is recommended.

Protective Clothing: Using chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained.

Note: These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions

Section 9: Physical and Chemical Properties

Appearance: Colorless to pale yellow to pale green yellow liquid.

Odor: Characteristic mint odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.918 - 0.938 @ 20°C

Optical Rotation: -70 - -53 @ 20°C

Refractive Index: 1.4850 - 1.4910

Extraction Method:

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard.

Conditions to Avoid: Avoid sparks, flame and excessive heat.

Materials to Avoid: Strong oxidizing agents.

Flammability: Combustible liquid.

Hazardous Polymerization: Will not occur. Hazardous Combustion or None known.

Decomposition Products: When heated to decomposition produces acid fumes and carbon monoxide smoke.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin Contact: Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene

Eye Contact: May irritate eyes.

Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting. Medical Conditions Aggravated

by Exposure: May aggravate dermatitis, psoriasis and other skin conditions.

Chronic Toxicity: May cause allergic reactions on skin

Carcinogenicity Data: None of the components of this material are listed as a carcinogen.

Reproductive Toxicity: No adverse effects on reproduction are known.

Acute Toxicity Values: No data is currently available.

Section 12: Ecological Information

Very toxic to aquatic organism may cause long-term adverse effects in the aquatic environment. Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Incineration or sanitary landfill in accordance with local, provincial and federal regulations. Check with disposal expert to insure compliance

Section 14: Transport Information

Chemical Identification:

UN No. 1169: Liquid aromatic extract. Packaging Group: III Class: 3

EINECS No: FEMA#:

US DOT Shipping Description: Check appropriate authority

IATA Shipping (Air): Check appropriate authority

IMDG Shipping Description: Check appropriate authority

Section 15: Regulatory Information

WHMIS (Canada): N/A

HMIS (USA): Health Hazard –N/A Fire Hazard - N/A Reactivity - N/A

SARA 302/ SARA 313: None

California Proposition 65:

This product does not contain chemical listed per the Safe Drinking Water and Enforcement Act of 1986

EU Labeling: R10 Flammable.

Xn R22 Harmful if swallowed.

Xi R38 Irritating to skin

S36/37/38 Wear suitable protective clothing, gloves and eye/face protection.

Section 16: Other Information

Disclaimer

Safety Data Sheet

Section 1: Identification

Product Name: Spikenard Oil

Botanical Name: Nardostachys jatamansi

Synonyms: Nardostachys grandiflora, Nardus indica, Patrinia jatamansi, Valeriana jatamansi, Valeriana

wallichii, Nardostachys chinensis, Nardostachys gracilis
INCI Name: Nardostachys chinensis root oil
CAS #: 8022-22-8
Country of Origin: Nepal
Company: Soapgoods Inc
Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093
Phone: (404) 924-9080
E-Mail: wecare@soapgoods.com
Emergency Phone: Chemtrec: 1-800-424-9300
Recommended Use: Personal Care

SECTION: 2. Classification

Chemical Identification: Oil, spikenard
UN No. 2319: Terpene hydrocarbons, n.o.s. Packaging Group: III Class: 3
24 HOUR EMERGENCY TELEPHONE NUMBER: (613)-996-6666 CANUTEC

SECTION: 3. Hazardous Ingredients Information

Carvacrol.

Section 4: Physical and Chemical Properties

Appearance: Golden yellow to greenish color slightly viscous liquid.
Odor: Characteristic earthy pleasant woody odor.
Solubility: Soluble in alcohol and oils. Insoluble in water.
Specific Gravity: 0.930 - 0.98 @ 20°C
Optical Rotation: -12.0 - -8.0 @ 20°C
Refractive Index: 1.500 - 1.545 @ 20°C
Gurjunene: 30 - 65 %
Patchoulene: 10 - 30 %
Maaliene: 5.0 - 18 %
Extraction Method: Steam distillation of the dried root.
Contents: Gurjunene, patchoulene, maaliene, aristolone, patchouli alcohol, seychellene, nardol, nardostachone, camphene, pinene, limonene
Flash Point: 85 °C

Section 5: Fire-Fighting Measures

Flash Point: 85 °C Combustible liquid. Will ignite if moderately heated.

Section 6: Stability and Reactivity

Reactivity: Stable.
Decomposition: When heated to decomposition produces toxic and carbon monoxide smoke.

Section 7: Toxicological Information/Information

Liquid may irritate skin and eyes. Should be avoided during pregnancy.

Section 8: Exposure Controls/Personal Protection

Spillage: Absorb spills, cover with an inert, non-combustible, inorganic absorbent material, and remove to an approved disposal container.

Fire: Recommended extinguishing media - CO₂, foam and dry chemicals. DO NOT use direct water jet on burning material.

Environment: Keep away from drains, surface and ground water.

Storage: Store in cool, dry and well ventilated area protected in tightly closed container away from sources of ignition, heat and sunlight. Keep air contact to minimum.

Section 9: First-Aid Measures

Eye contact: Flush with water for at least 15 minutes. Call physician if irritation persists.

Inhalation: Remove to fresh air. Avoid casual breathing.

Ingestion: Rinse mouth and consult a physician immediately. Never-give anything by mouth if victim is unconscious, is rapidly-losing consciousness, or is convulsing.

Skin contact: Remove contaminated clothing. Wash with soap and plenty of water.

Section 11: Exposure Controls/Personal Protection

Use safety glasses.

Avoid breathing in product by ensuring good ventilation when handling.

Avoid skin contact by using chemical resistant gloves.

SECTION: 12. OTHER INFORMATION

Section 16: Other Information

Safety Data Sheet

Section 1: Identification

Product Name: Spruce Black (Wild) Essential Oil

Botanical Name: *Picea mariana*

Synonyms: *Abies mariana*, *Picea brevifolia*, *Pinus nigra*

INCI Name: *Picea mariana* leaf oil

CAS #: 8008-80-8

Country of Origin: Canada

Company: Soapgoods Inc

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

Section 2: Composition/Information on Ingredients

Contents: α -pinene, germacrene D, β -pinene, β -caryophyllene, cadinene, limonene, β -ocimene, myrcene, terpinolene, α -cadinol, camphene

Section 3: Hazard(s) Identification N/A
Medical Information: N/A

Section 4: First-Aid Measures

Eye Contact: Contact with eyes can produce burning sensation. Irrigate with water immediately, continue flushing eyes with water for 15 minutes. Seek medical attention if irritation persists.

Inhalation: Remove to fresh air. Give oxygen if breathing is labored and seek medical advice. Avoid casual breathing. Signs of over exposure are dizziness and nausea.

Ingestion: Rinse mouth; dilute with milk or water and consult a physician immediately. Do not induce vomiting. Never-give anything by mouth if victim is unconscious, is rapidly-losing or is Convulsing.

Skin Contact: Skin contact can produce irritation, or itching of the skin. Remove contaminated clothing Wash with soap and plenty of water. Seek medical attention if irritation persists.

Section 5: Fire-Fighting Measures

Flash Point: 50°C Combustible liquid.

Extinguishing media: Carbon Dioxide, dry chemical or foam. Closed containers may build up pressure at elevated temperature

Special Procedures: Determine the need to evacuate or isolate the area according to your local emergency plan.

Firefighting Hazards: None identified.

Protective Equipment: Self-contained breathing apparatus and protective clothing should be worn when fighting fires involving essential oils or chemicals.

Combustion Product: Carbon Monoxide, Carbon Dioxide

Section 6: Accidental Release Measures

Personal Precautions: Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8. **Safety Precautions:** Eliminate all ignition sources. Ventilate area. Determine the need to evacuate or isolate the area according to your local emergency plan.

Environmental Precautions: Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods For Cleaning Up: Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Section 7: Handling and Storage

Handling: Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use.

Storage: Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition. Make sure the material does not come into contact with substances listed as: "Materials to Avoid".

Section 8: Exposure Controls/Personal Protection

Eyes Protection: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended

Respiratory Protection: In well-ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of "NIOSH" approved respiratory protection normally required (use only if trained in proper use and with acceptable oxygen level).

Protective Gloves: Using chemical resistant gloves is recommended.

Protective Clothing: Using chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained.

Note: These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions.

Section 9: Physical and Chemical Properties

Appearance: Colorless to pale yellow liquid.

Odor: Characteristic fresh sweet woody odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.90 - 0.915 @ 20°C

Optical Rotation: -40.0 - -20.0 @ 20°C

Refractive Index: 1.467 - 1.472 @ 20°C

Extraction Method: Steam distillation of the leaves and twigs.

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard.

Conditions to Avoid: Avoid sparks, flame and excessive heat.

Materials to Avoid: Strong oxidizing agents.

Flammability: Combustible liquid.

Hazardous Polymerization: Will not occur. Hazardous Combustion or None known.

Decomposition Products: When heated to decomposition produces acid fumes and carbon monoxide smoke.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin Contact: Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene

Eye Contact: May irritate eyes.

Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting.

Medical Conditions Aggravated by Exposure: May aggravate dermatitis, psoriasis and other skin conditions.

Chronic Toxicity: May cause allergic reactions on skin

Carcinogenicity Data: None of the components of this material are listed as a carcinogen.

Reproductive Toxicity: No adverse effects on reproduction are known.

Acute Toxicity Values: No data is currently available.

Section 12: Ecological Information

Very toxic to aquatic organism may cause long-term adverse effects in the aquatic environment. Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Incineration or sanitary landfill in accordance with local, provincial and federal regulations. Check with disposal expert to insure compliance

Section 9: Physical and Chemical Properties

Appearance: Pale yellow to golden yellow liquid.

Odor: Characteristic sweet citrus odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.848 - 0.8695 @ 20°C

Optical Rotation: 90 - 98 @ 20°C

Refractive Index: 1.4730 - 1.480 @ 20°C

Extraction Method: Steam distillation of the whole ripe fruit.

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard.

Conditions to Avoid: Avoid sparks, flame and excessive heat.

Materials to Avoid: Strong oxidizing agents.

Flammability: Combustible liquid.

Hazardous Polymerization: Will not occur. Hazardous Combustion or None known.

Decomposition Products: When heated to decomposition produces acid fumes and carbon monoxide smoke.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin Contact: Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene

Eye Contact: May irritate eyes.

Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting.

Medical Conditions Aggravated by Exposure: May aggravate dermatitis, psoriasis and other skin conditions.

Chronic Toxicity: May cause allergic reactions on skin

Carcinogenicity Data: None of the components of this material are listed as a carcinogen.

Reproductive Toxicity: No adverse effects on reproduction are known.

Acute Toxicity Values: No data is currently available.

Section 12: Ecological Information

Very toxic to aquatic organism may cause long-term adverse effects in the aquatic environment. Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Incineration or sanitary landfill in accordance with local, provincial and federal regulations. Check with disposal expert to insure compliance

Section 14: Transport Information

Chemical Identification:

UN No. 1169: Liquid aromatic extract.

Packaging Group: III Class: 3

Disclaimer

Soapgoods it's affiliates and any other officers, directors or employees, agents, third-party content providers, merchants, sponsors, licensors or the like (now referred to as Soapgoods) cannot anticipate all conditions under which this information and its product, or the products of other manufacturers in combination with its product may be used. It is the user's responsibility to ensure safe conditions for handling, storage and disposal of the product, and to assume liability for loss, injury, damage or expense due to improper use. The information in the sheet was written based on the best knowledge, and experience currently available. You expressly agree that your use of this MSDS is at your sole risk. Soapgoods expressly disclaims all express or implied warranties or merchantability and fitness for a particular purpose, with respect to the product or information provided herein, and shall under no circumstances be liable for incidental or consequential damages.

Do not use the ingredient information and/or ingredient percentages in this MSDS as a product specification. For product specification information refer to a product specification sheet and/or a certificate of analysis.

All information appearing herein is based upon the data obtained from the manufacturer and/or recognized technical sources. While the information is believed to be accurate, Soapgoods makes no representations as to its accuracy or sufficiency. Conditions of use are beyond Soapgoods control and therefore users are responsible to verify this data under their own operating conditions to determine whether the product is suitable for their particular purposes and they assume all risks of their use, handling, and disposal of the product, or from the publication or use of, or reliance upon, information contained herein. This information relates only to the product designated herein, and does not relate to its use in combination with any other material or in any other process.

Review Date: December 2015

The logo for SoapGoods, featuring the word "SoapGoods" in a blue, sans-serif font. The letter "O" in "Goods" is stylized with a white circle inside, resembling a soap bubble.

Safety Data Sheet

Section 1: Identification

Product Name: Tangerine 5 Fold Essential Oil

Botanical Name: Citrus reticulata Blanco var tangerina

Synonyms: Citrus nobilis Andrews var tangerina, Citrus tangerina

INCI Name: Citrus tangerina (tangerine) peel oil

CAS #: 8016-85-1

County of Origin: Italy

Company: Soapgoods Inc

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

Section 2: Composition/Information on Ingredients

Contents: a-pinene, myrcene, limonene, ?-terpinene, linalool, neryl acetate,

Limonene: 90.0 - 93.5 % Myrcene: 1.7 - 2.5 %

?-Terpinene: 2.8 - 3.5 % a-Pinene: 0.7 - 1.3 %

Section 3: Hazard(s) Identification

N/A

Medical Information: N/A

Section 4: First-Aid Measures

Eye Contact: Contact with eyes can produce burning sensation. Irrigate with water immediately, continue flushing eyes with water for 15 minutes. Seek medical attention if irritation persists.

Inhalation: Remove to fresh air. Give oxygen if breathing is labored and seek medical advice. Avoid casual breathing. Signs of over exposure are dizziness and nausea.

Ingestion: Rinse mouth; dilute with milk or water and consult a physician immediately. Do not induce vomiting. Never-give anything by mouth if victim is unconscious, is rapidly-losing or is Convulsing.

Skin Contact: Skin contact can produce irritation, or itching of the skin. Remove contaminated clothing Wash with soap and plenty of water. Seek medical attention if irritation persists.

Section 5: Fire-Fighting Measures

Flash Point: 49°C Combustible liquid.

Extinguishing media: Carbon Dioxide, dry chemical or foam. Closed containers may build up pressure at elevated temperature

Special Procedures: Determine the need to evacuate or isolate the area according to your local emergency plan.

Firefighting Hazards: None identified.

Protective Equipment: Self-contained breathing apparatus and protective clothing should be worn when fighting fires involving essential oils or chemicals. Combustion Product: Carbon Monoxide, Carbon Dioxide

Section 6: Accidental Release Measures

Personal Precautions: Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8.

Safety Precautions: Eliminate all ignition sources. Ventilate area. Determine the need to Evacuate or isolate the area according to your local emergency plan.

Environmental Precautions: Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods For Cleaning Up: Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Section 7: Handling and Storage

Handling: Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use.

Storage: Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition. Make sure the material does not come into contact with substances listed as: "Materials to Avoid".

Section 8: Exposure Controls/Personal Protection

Eyes Protection: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended

Respiratory Protection: In well- ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of "NIOSH" approved respiratory protection normally required (use only if trained in proper use and with acceptable oxygen level).

Protective Gloves: Using chemical resistant gloves is recommended.

Protective Clothing: Using chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained.

Note: These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions

Section 9: Physical and Chemical Properties

Appearance: Pale yellow to golden yellow liquid.

Odor: Characteristic sweet citrus odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.848 - 0.8695 @ 20°C

Optical Rotation: 90 - 98 @ 20°C

Refractive Index: 1.4730 - 1.480 @ 20°C

Extraction Method: Steam distillation of the whole ripe fruit.

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard.

Conditions to Avoid: Avoid sparks, flame and excessive heat.

Materials to Avoid: Strong oxidizing agents.

Flammability: Combustible liquid.

Hazardous Polymerization: Will not occur. Hazardous Combustion or None known.

Decomposition Products: When heated to decomposition produces acid fumes and carbon monoxide smoke.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin Contact: Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene

Eye Contact: May irritate eyes.

Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting.

Medical Conditions Aggravated by Exposure: May aggravate dermatitis, psoriasis and other skin conditions.

Chronic Toxicity: May cause allergic reactions on skin

Carcinogenicity Data: None of the components of this material are listed as a carcinogen.

Reproductive Toxicity: No adverse effects on reproduction are known.

Acute Toxicity Values: No data is currently available.

Section 12: Ecological Information

Very toxic to aquatic organism may cause long-term adverse effects in the aquatic environment. Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Incineration or sanitary landfill in accordance with local, provincial and federal regulations. Check with disposal expert to insure compliance

Section 2: Composition/Information on Ingredients

Contents: Thujone, camphor, chrysanthenol, chrysanthenyl, isopinocampnone, borneol, camphone, artemisone, piperitone

Chamazulene: 3 - 5 % β -Thujone: 15 - 25 %

Camphor: 10 - 15 % trans-Chrysanthenol: 1 - 5 %

trans-Chrysanthenyl: 10 - 20 %

Section 3: Hazard(s) Identification

Slightly hazardous.

Medical Information: N/A

Section 4: First-Aid Measures

Eye Contact: Contact with eyes can produce burning sensation. Irrigate with water immediately, continue flushing eyes with water for 15 minutes. Seek medical attention if irritation persists.

Inhalation: Remove to fresh air. Give oxygen if breathing is labored and seek medical advice. Avoid casual breathing. Signs of over exposure are dizziness and nausea.

Ingestion: Rinse mouth; dilute with milk or water and consult a physician immediately. Do not induce vomiting. Never-give anything by mouth if victim is unconscious, is rapidly-losing or is Convulsing.

Skin Contact: Skin contact can produce irritation, or itching of the skin. Remove contaminated clothing Wash with soap and plenty of water. Seek medical attention if irritation persists.

Section 5: Fire-Fighting Measures

Flash Point: 60°C Combustible liquid.

Extinguishing media: Carbon Dioxide, dry chemical or foam. Closed containers may build up pressure at elevated temperature

Special Procedures: Determine the need to evacuate or isolate the area according to your local emergency plan.

Firefighting Hazards: None identified.

Protective Equipment: Self-contained breathing apparatus and protective clothing should be worn when fighting fires involving essential oils or chemicals.

Combustion Product: Carbon Monoxide, Carbon Dioxide

Section 6: Accidental Release Measures

Personal Precautions: Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8.

Safety Precautions: Eliminate all ignition sources. Ventilate area. Determine the need to evacuate or isolate the area according to your local emergency plan.

Environmental Precautions: Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods For Cleaning Up: Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Section 7: Handling and Storage

Handling: Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use.

Storage: Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition. Make sure the material does not come into contact with substances listed as: "Materials to Avoid".

Eyes Protection: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended

Respiratory Protection: In well-ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of "NIOSH" approved respiratory protection normally required (use only if trained in proper use and with acceptable oxygen level).

Protective Gloves: Using chemical resistant gloves is recommended.

Protective Clothing: Using chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained.

Note: These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions

Section 9: Physical and Chemical Properties

Appearance: Bluish green liquid.

Odor: Characteristic unpleasant odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.950 - 0.960 @ 20°C

Optical Rotation: +24.0 - +38 @ 20°C

Refractive Index: 1.470 - 1.475 @ 20°C

Extraction Method: Steam distillation of the whole plant.

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard.

Conditions to Avoid: Avoid sparks, flame and excessive heat.

Materials to Avoid: Strong oxidizing agents.

Flammability: Combustible liquid.

Hazardous Polymerization: Will not occur. Hazardous Combustion or None known.

Decomposition Products: When heated to decomposition produces acid fumes and carbon monoxide smoke.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin Contact: Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene

Eye Contact: May irritate eyes.

Recommended Use: Personal Care

Section: 2. Classification:

Chemical Identification: Oil, Tea tree

UN No. 2319: Terpene hydrocarbons, n.o.s. (Tea tree oil)

WHMIS Classification: D2B, B3. Packaging Group: III Class: 3

CAS EU: 85085-48-9 EINECS: 285-377-1

24 HOUR EMERGENCY TELEPHONE NUMBER: (613)-996-6666 CANUTEC

Section: 3. Hazardous Ingredients Information:

Terpinen-4-ol and 1,8-cineol.

Section 4: Physical and Chemical Properties:

Appearance: Colorless to pale yellow clear liquid.

Odor: Characteristic warm, spicy odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.880 - 0.910 @ 20°C

Optical Rotation: 5.0 - 15 @ 20°C

Refractive Index: 1.4750 - 1.4820 @ 20°C

Terpinen-4-ol: 30 - 48 %

1,8-Cineol: Trace - 15 %

?-Terpinene: 10 - 28 %

a-Terpinene: 5 - 13 %

a-Pinene: 1 - 6 %

Sabinene: Trace - 3.5 %

Terpinolene: 1.5 - 5 %

Limonene: 0.5 - 4 %

p-Cymene: 0.5 - 12 %

Extraction Method: Steam distillation of the fresh leaves.

Contents: Terpinen-4-ol, cineol, terpinene, pinene, sabinene, cymene, limonene, terpinolene, terpineol, aromadendrene, cadinene, globulol, viridifloral.

Flash Point: 59 °C (closed cup)

Section 5: Fire-Fighting Measures:

Flash Point: 59 °C closed cup) Combustible liquid. Will ignite if moderately heated.

Section 6: Stability and Reactivity:

Reactivity: Stable.

Decomposition: When heated to decomposition produces toxic fumes and carbon monoxide smoke.

Section 7: Toxicological Information/Information:

Can cause irritation to skin and eyes. Some persons may experience hypersensitivity since it can be allergenic because of cineol. Toxic if ingested.

Oral (rat), LD50 = 1.9 g/kg

Dermal (rabbit), LD50 >5 g/kg

Section 8: Exposure Controls/Personal Protection:

Spillage: Absorb spills, cover with an inert, non-combustible, inorganic absorbent material, and remove to an approved disposal container.

Fire: Recommended extinguishing media - CO₂, foam and dry chemicals. DO NOT use direct water jet on burning material.

Environment: Keep away from drains, surface and ground water.

Storage: Store in cool, dry and well ventilated area protected in tightly closed container away from sources of ignition, heat and sunlight. Keep air contact to minimum.

Section 9: First-Aid Measures:

Eye contact: Flush with water for at least 15 minutes. Call physician if irritation persists.

Inhalation: Remove to fresh air. Avoid casual breathing.

Ingestion: Rinse mouth and consult a physician immediately. Never-give anything by mouth if victim is unconscious, is rapidly-losing consciousness, or is convulsing.

Skin contact: Remove contaminated clothing. Wash with soap and plenty of water.

Section: 11. Individual Protection For Industrial and Bulk Container Use:

Safety glasses.

Avoid breathing in product by ensuring good ventilation when handling.
Avoid skin contact by using chemical resistant gloves.

SECTION: 12. OTHER INFORMATION

Eyes Protection: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended

Respiratory Protection: In well-ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of "NIOSH" approved respiratory protection normally required (use only if trained in proper use and with acceptable oxygen level).

Protective Gloves: Using chemical resistant gloves is recommended.

Protective Clothing: Using chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained.

Note: These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions

Section 9: Physical and Chemical Properties

Appearance: Colorless to pale yellow clear liquid.

Odor: Characteristic warm, spicy odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.
Specific Gravity: 0.885 - 0.915 @ 20°C
Optical Rotation: +5.0 - +15 @ 25°C
Refractive Index: 1.4750 - 1.4850 @ 20°C
Extraction Method: Steam distillation of the fresh leaves.

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard.
Conditions to Avoid: Avoid sparks, flame and excessive heat.
Materials to Avoid: Strong oxidizing agents.
Flammability: Combustible liquid.
Hazardous Polymerization: Will not occur. Hazardous Combustion or None known.
Decomposition Products: When heated to decomposition produces acid fumes and carbon monoxide smoke.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.
Skin Contact: Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene
Eye Contact: May irritate eyes.
Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting.
Medical Conditions Aggravated by Exposure: May aggravate dermatitis, psoriasis and other skin conditions.
Chronic Toxicity: May cause allergic reactions on skin
Carcinogenicity Data: None of the components of this material are listed as a carcinogen.
Reproductive Toxicity: No adverse effects on reproduction are known.
Acute Toxicity Values: No data is currently available.

Section 12: Ecological Information

Very toxic to aquatic organism may cause long-term adverse effects in the aquatic environment. Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Incineration or sanitary landfill in accordance with local, provincial and federal regulations. Check with disposal expert to insure compliance

Section 14: Transport Information

Chemical Identification: Flammable Liquid
UN No. 1993: Liquid aromatic extract.
Packaging Group: III Class: 3
US DOT Shipping Description: Check appropriate authority
IATA Shipping (Air): Check appropriate authority
IMDG Shipping Description: Check appropriate authority

Section 15: Regulatory Information

WHMIS (Canada): N/A

HMIS (USA): Health Hazard –N/A Fire Hazard - N/A Reactivity - N/A

SARA 302/ SARA 313: None

California Proposition 65: This product does not contain chemical listed per the Safe Drinking Water and Enforcement Act of 1986

EU Labeling: R10 Flammable.

Xn R22 Harmful if swallowed.

Xi R38 Irritating to skin

S36/37/38 Wear suitable protective clothing, gloves and eye/face protection.

Section 16: Other Information

Disclaimer

Conditions of use are beyond Soapgoods control and therefore users are responsible to verify this data under their own operating conditions to determine whether the product is suitable for their particular purposes and they assume all risks of their use, handling, and disposal of the product, or from the publication or use of, or reliance upon, information contained herein. This information relates only to the product designated herein, and does not relate to its use in combination with any other material or in any other process.

Review Date: December 2015

Safety Data Sheet

Section 1: Identification

Product Name: Tea Tree (Lemon) Essential Oil

Botanical Name: Leptospermum petersonii

Synonyms: Leptospermum citratum, Leptospermum flavescens var citratum

INCI Name: Leptospermum petersonii oil

CAS #: n/a

Country of Origin: Australia

Company: Soapgoods Inc

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

Section 2: Composition/Information on Ingredients

Contents: Geraniol, neral, citronellal, isopulegol, linalool, citronellol, cis-iso-citral, bicyogermacrene, isoiso-pulegol, 6-methyl-5-hepten-2-one

Neral: 20 - 30 % Geraniol 25 - 35% Citronellal 10 - 25%

Section 3: Hazard(s) Identification

Medical Information: N/A

Section 4: First-Aid Measures

Eye Contact: Contact with eyes can produce burning sensation. Irrigate with water immediately, continue flushing eyes with water for 15 minutes. Seek medical attention if irritation persists.

Inhalation: Remove to fresh air. Give oxygen if breathing is labored and seek medical advice. Signs of over exposure are dizziness and nausea.

Ingestion: Rinse mouth; dilute with milk or water and consult a physician immediately. Never give anything by mouth if victim is unconscious, is rapidly-losing consciousness or is convulsing.

Skin Contact: Remove contaminated clothing. Wash with soap and plenty of water.

Section 5: Fire-Fighting Measures

Flash Point: 57°C Combustible liquid. Will ignite if moderately heated. Extinguishing media: Carbon Dioxide, dry chemical or foam. Closed containers may build up pressure at elevated temperature

Protective Equipment: Self-contained breathing apparatus and protective clothing should be worn when fighting fires involving essential oils or chemicals.

Combustion Product: Carbon Monoxide, Carbon Dioxide

Section 6: Accidental Release Measures

Personal Precautions: Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8.

Safety Precautions: Eliminate all ignition sources. Ventilate area. Determine the need to evacuate or isolate the area according to your local emergency plan.

Environmental Precautions: Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods For Cleaning Up: Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Section 7: Handling and Storage

Handling: Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use.

Storage: Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition.

Section 8: Exposure Controls/Personal Protection

Eyes Protection: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, splash goggles or face shield is recommended

Respiratory Protection: In well- ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of approved respiratory protection is normally required (use only if trained in proper use and with acceptable oxygen level).

Protective Gloves: Use of chemical resistant gloves is recommended.

Protective Clothing: Use of chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained. Note: These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions

Section 9: Physical and Chemical Properties

Appearance: Pale yellow to yellow clear liquid.

Odor: Characteristic citrus-green slightly floral odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.800 - 0.900 @ 20°C

Optical Rotation: +1.5 - +10 @ 20°C

Refractive Index: 1.475 - 1.4850 @ 20°C

Extraction Method: Steam distillation of the fresh leaves.

Section 10: Stability and Reactivity

Stability: Chemically stable. This material presents no significant reactivity hazard.

Conditions to Avoid: Avoid sparks, flame and excessive heat.

Materials to Avoid: Strong oxidizing agents.

Flammability: Combustible liquid.

Decomposition Products: When heated to decomposition produces toxic fumes and carbon monoxide.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin Contact: Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene

Eye Contact: May irritate eyes.

Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting.

Medical Conditions Aggravated by Exposure: May aggravate dermatitis, psoriasis and other skin conditions.

Section 12: Ecological Information

Very toxic to aquatic organism may cause long-term adverse effects in the aquatic environment. Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Dispose of in accordance with local, provincial and federal regulations. Check with disposal expert to insure compliance

Section 14: Transport Information

Chemical Identification:

UN No. 1993: Liquid aromatic extract.

Packaging Group: III

Class: 3

US DOT Shipping Description: Check appropriate authority

IATA Shipping (Air): Check appropriate authority

IMDG Shipping Description: Check appropriate authority

Section 15: Regulatory Information

Safety Data Sheet

Section 1: Identification

Product Name: Thyme Red Essential Oil

Botanical Name: *Thymus vulgaris*

Synonyms: *Thymus webbianus*

INCI Name: *Thymus vulgaris* (thyme) oil

CAS #: 8007-46-3

County of Origin: India

Company: Soapgoods Inc

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

Section 2: Composition/Information on Ingredients

Contents: Carvacrol, thymol, b-caryophyllene, borneol, linalool, a-terpinene, p-cymene, b-pinene, camphene, a-pinene, camphor, gamma terpinene

Section 3: Hazard(s) Identification

Thymol and carvacrol.

Medical Information: N/A

Section 4: First-Aid Measures

Eye Contact: Contact with eyes can produce burning sensation. Irrigate with water immediately, continue flushing eyes with water for 15 minutes. Seek medical attention if irritation persists.

Inhalation: Remove to fresh air. Give oxygen if breathing is labored and seek medical advice. Avoid casual breathing. Signs of over exposure are dizziness and nausea.

Ingestion: Rinse mouth; dilute with milk or water and consult a physician immediately. Do not induce vomiting. Never-give anything by mouth if victim is unconscious, is rapidly-losing or is Convulsing.

Skin Contact: Skin contact can produce irritation, or itching of the skin. Remove contaminated clothing Wash with soap and plenty of water. Seek medical attention if irritation persists..

Section 5: Fire-Fighting Measures

Flammable Limits: Flash Point: 55 °C Combustible liquid

Extinguishing media: Carbon Dioxide, dry chemical or foam. Closed containers may build up pressure at elevated temperature

Special Procedures: Determine the need to evacuate or isolate the area according to your local emergency plan.

Unusual Firefighting Hazards: None identified.

Protective Equipment: Self-contained breathing apparatus and protective clothing should be worn when fighting fires involving essential oils or chemicals.

Combustion Product: Carbon Monoxide, Carbon Dioxide

Section 6: Accidental Release Measures

Personal Precautions: Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8.

Safety Precautions: Eliminate all ignition sources. Ventilate area. Determine the need to Evacuate or isolate the area according to your local emergency plan.

Environmental Precautions: Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods For Cleaning Up: Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Section 7: Handling and Storage

Handling: Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated

clothing and shoes should be cleaned before re-use.

Storage: Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition Make sure the material does not come into contact with substances listed as: "Materials to Avoid".

Section 8: Exposure Controls/Personal Protection

Eyes Protection: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended

Respiratory Protection: In well- ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of "NIOSH" approved respiratory protection normally required (use only if trained in proper use and with acceptable oxygen level).

Protective Gloves: Using chemical resistant gloves is recommended.

Protective Clothing: Using chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area.

Acceptable industrial hygiene practices should be maintained. Note: These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions

Section 9: Physical and Chemical Properties

Appearance: Pale yellow to reddish yellow clear liquid.

Odor: Characteristic thymol odor.

Main Contents Volatile oil and resin part of Myrrh Solubility: Soluble in Alcohol and other Oils and Solvents Residual Solvent 30 ppm

Flash Point: 55 °C Additives 60% pure Extract material + 40% D.E.P Color Very Light Yellow

Specific Gravity: 1.4870 - 1.504

Extraction Method: Steam distillation of the leaves.

Flammability: Combustible liquid. Will ignite if moderately heated.

Hazardous Polymerization: Will not occur. Hazardous Combustion or None known.

Decomposition Products: When heated to decomposition produces toxic fumes and carbon monoxide smoke.

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin Contact: Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene

Eye Contact: May irritate eyes.

Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting.

Medical Conditions Aggravated by Exposure: May aggravate dermatitis, psoriasis and other skin conditions.

Chronic Toxicity: May cause allergic reactions on skin

Carcinogenicity Data: None of the components of this material are listed as a carcinogen.

Reproductive Toxicity: No adverse effects on reproduction are known.

Acute Toxicity Values: No data is currently available.

Section 12: Ecological Information

Very toxic to aquatic organism, may cause long-term adverse effects in the aquatic environment. Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Incineration or sanitary landfill in accordance with local, provincial and federal regulations. Check with disposal expert to insure compliance

Section 14: Transport Information

Chemical Identification: Oil, thyme

UN No. 1169: Liquid Aromatic Extracts

Packaging Group III Class: 3

Safety Data Sheet

Section 1: Identification

Product Name: Thyme Essential Oil (White)

Botanical Name: *Thymus zygis*

Synonyms: *Thymus tenuifolius*, *Serpyllum zygis*

INCI Name: *Thymus zygis* (thyme) oil

CAS #: 8007-46-3

County of Origin: Spain

Company: Soapgoods Inc

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

Section 2: Composition/Information on Ingredients

Contents: Carvacrol, thymol, b-caryophyllene, borneol, linalool, a-terpinene, p-cymene, b-pinene, camphene, a-pinene, 1 Methyl-4-isopropylbenze, gamma terpinene

Section 3: Hazard(s) Identification

Thymol and carvacrol Risk Phase R38, R65

Security Phase: S62

Medical Information: N/A

Section 4: First-Aid Measures

Eye Contact: Flush with water for at least 15 minutes. Call physician if irritation occurs.

Inhalation: Remove to fresh air. Give oxygen if breathing is labored and seek medical advice.

Ingestion: Rinse mouth; dilute with water and consult a physician immediately. Never-give anything by mouth if victim is unconscious, is rapidly-losing or is Convulsing.

Skin Contact: Remove contaminated clothing, wash skin with soap and plenty of water. Seek medical attention if irritation persists.

Section 5: Fire-Fighting Measures

Flammable Limits:

Flash Point: 65 °C (closed cup) Combustible liquid. Will ignite if moderately heated.

Extinguishing media: Carbon Dioxide, dry chemical or foam. Closed containers may build up pressure at elevated temperature. DO NOT use direct water jet on burning material.

Special Procedures: Determine the need to evacuate or isolate the area according to your local emergency plan.

Unusual Firefighting Hazards: Do not breathe gas / fumes / vapour, may produce toxic fumes of carbon monoxide if burning.

Protective Equipment: Self-contained breathing apparatus and protective clothing should be worn when fighting fires involving essential oils or chemicals.

Combustion Product: Carbon Monoxide, Carbon Dioxide

Section 6: Accidental Release Measures

Personal Precautions: Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8.

Safety Precautions: Eliminate all ignition sources. Ventilate area. Determine the need to Evacuate or isolate the area according to your local emergency plan.

Environmental Precautions: Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods For Cleaning Up: Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Section 7: Handling and Storage

Handling: Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use. Keep fire extinguisher accessible.

Storage: Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and away from all sources of ignition

Make sure the material does not come into contact with substances listed as: "Materials to Avoid". Product may freeze partially below 20°C. To thaw store at a temperature between 60°C and 80°C until liquid. Shake until thoroughly mixed before using.

Section 8: Exposure Controls/Personal Protection

Eyes Protection: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended

Respiratory Protection: In well- ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of "NIOSH" approved respiratory protection normally required (use only if trained in proper use and with acceptable oxygen level).

Protective Gloves: Using chemical resistant gloves is recommended.

Protective Clothing: Using chemical resistant clothing is recommended.

Protective Equipment: An eyewash fountain and / or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained.

Note: These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions

Section 9: Physical and Chemical Properties

Appearance: Slightly yellow mobile liquid.

Odor: Characteristic odor.

Solubility in water: Insoluble

Flash Point: 65 °C

Specific Gravity @ 20°C: 0.915 - 0.935

Refractive Index @ 20°C: 1.495 - 1.505

Optical Rotation@ 20°C :- 3 --0.1

Gamma terpinene: 10 - 20 %

1 Methyl-4-isopropylbenze: 10 - 20 %

Flammability: Not applicable

Extraction Method: Steam distillation of the leaves followed by rectification to increase thymol content to standardization

Section 11: Toxicological Information

Inhalation: Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin Contact: Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene

Eye Contact: May irritate eyes.

Ingestion: Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting.

Corrosively: Based on the ingredients and their concentration, this product is in conformance with Directive 199/45/EC classified as:

C - Corrosive

Section 12: Ecological Information

Based on the ingredients and their concentration, this product is in conformance with

Directive 199/45/EC classified as:

N - Dangerous for the environment.

Very toxic to aquatic organism, may cause long-term adverse effects in the aquatic environment.

Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Considerations

Dispose of in accordance with local, provincial and federal regulations. Check with disposal expert to ensure compliance

Section 14: Transport Information

Chemical Identification: Oil, thyme

UN No. 1760: Liquid Aromatic Extracts

Packaging Group III Class: 3

US DOT Shipping Description: Check appropriate authority

IATA Shipping (Air): Check appropriate authority

IMDG Shipping Description: Check appropriate authority

Environmental Hazard: Marine pollutant - Yes

Section 15: Regulatory Information

WHMIS (Canada): Not available.

HMIS (USA): Health Hazard - Fire Hazard - Reactivity -

EU Labeling: R10 Flammable.

Xn R22 Harmful if swallowed.

R34 Causes burns.

Xi R38 Irritating to skin

R43 May cause sensitization by skin contact

R50/53 Very toxic to aquatic organism, may cause long-term adverse effects in the aquatic environment.

R51/53 Toxic to aquatic organism, may cause long-term adverse effects in the aquatic environment.

R65 Harmful may cause lung damage if swallowed.

S36/37/38 Wear suitable protective clothing, gloves and eye/face protection.

Review Date: December 2015

Safety Data Sheet

Section 1: Identification

Product Name: Turmeric Oil

Botanical Name: *Curcuma longa* L.

Synonyms: *Curcuma domestica* Valetton, *Curcuma aromatica* Salisbury

INCI Name: *Curcuma longa* (turmeric) root extract

CAS #: 8024-37-1

County of Origin: India

Company: Soapgoods Inc

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

2. Classification:

Chemical Identification: Oil, Turmeric

UN No. 2319: Terpene hydrocarbons, n.o.s.

Packaging Group: III

Class: 3

24 HOUR EMERGENCY TELEPHONE NUMBER: (613)-996-6666 CANUTEC

3. Hazardous Ingredients Information:

Curcumin.

4. Physical & Chemical Properties:

Appearance: Pale yellow to reddish-brown oily liquid.

Odor: Characteristic warm, spicy turmeric odor.

Solubility: Soluble in alcohol and oils. Insoluble in water.

Specific Gravity: 0.925 - 0.935 @ 20°C

Optical Rotation: -24 - -27 @ 20°C

Refractive Index: 1.500 - 1.650 @ 20°C

Turmerone: > 30 %

ar-Turmerone: <25 %

Zingiberone: <25 %

Curcumin: 3 - 4 %

Extraction Method: Steam distillation of the fresh or dried crushed rhizomes.

Contents: Turmerone, ar-turmerone, anlatone, zingiberone, and conjugated diarylheptanoids (1,7-diarylhepta-1,6-diene-3,5-diones e.g. curcumin), 1-cyclo-isoprenemyrcene

Flash Point: 60 °C

5. Fire/Explosion Hazard:

Flash Point: 60 °C Combustible liquid. Will ignite if moderately heated.

6. Reactivity/Stability Data:

Reactivity: Stable. Decomposition: When heated to decomposition produces toxic fumes and carbon monoxide smoke.

7. Toxicological Properties/Information:

Not to be used if suffering from acute jaundice and hepatitis, obstruction of the bile duct or gallstones, fever or inflammation and during pregnancy. At doses higher than oral (rat), LD50 = 100 mg/kg, curcumin may be ulcerogenic.

8. Preventive Data:

Spillage: Absorb spills, cover with an inert, non-combustible, inorganic absorbent material, and remove to an approved disposal container.

Fire: Recommended extinguishing media - CO2, foam and dry chemicals. DO NOT use direct water jet on burning material.

Environment: Keep away from drains, surface and ground water.

Storage: Store in cool, dry and well ventilated area protected in tightly closed container away from sources of ignition, heat and sunlight. Keep air contact to minimum.

9. First Aid Measures:

Eye contact: Flush with water for at least 15 minutes. Call physician if irritation persists.

Inhalation: Remove to fresh air. Avoid casual breathing.

Ingestion: Rinse mouth and consult a physician immediately. Never-give anything by mouth if victim is unconscious, is rapidly-losing consciousness, or is convulsing.

Skin contact: Remove contaminated clothing. Wash with soap and plenty of water.

10. Individual Protection for Industrial Use:

Use safety glasses.

Avoid breathing in product by ensuring good ventilation when handling.

Avoid skin contact by using chemical resistant gloves.

14. TRANSPORT INFORMATION

US DOT Shipping Description (Land) Not regulated.

Safety Data Sheet

Section 1: Identification

Product name : Vanilla Oleoresin (10 Fold)

Botanical name : Vanilla Planifolia

INCI name : Vanilla plantifolia Oleoresin

CAS # : 8023-78-7

Product use : Domestic and Industrial

Company: Soapgoods Inc

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

2. HAZARDS IDENTIFICATION

Emergency Overview

WHMIS Classification

Not available

GHS Classification Not available

GHS Label elements, including precautionary statements

Signal: Warning

Hazard statement(s)

H302 Harmful if swallowed

H316 Causes mild skin irritation

H320 Causes eye irritation

H333 May be harmful if inhaled Page 1/5 Precautionary statement(s)

HMIS Classification & Potential Health Effects

3. COMPOSITION / INFORMATION INGREDIENTS Product Name CAS NO EC NO Concentration Vanillin
1.2-1.4%

4. FIRST AID MEASURES

Eye contact Immediately flush eyes with plenty of cool water for at least 15 minutes. Get medical attention if irritation occurs.

Skin contact Remove contaminated clothing. Wash area with soap and water. If irritation occurs, get medical attention.

Inhalation If inhaled, removed to fresh air. Get medical attention if symptoms appear.

Ingestion Seek medical attention or contact local poison control center.

5. FIRE FIGHTING MEASURES

Suitable extinguishing media

Carbon Dioxide, dry chemical or foam. Closed containers may build up pressure at elevated temperature.

Unsuitable extinguishing media

Do not use water jet on material.

Special protective equipment and Precautions for fire-fighters

The product is not flammable. Wear proper protective equipment. Exercise caution when fighting any chemical fire. Use water spray or fog for cooling exposed containers.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, protective equipment and emergency procedures.

Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8.

Environmental Precautions

Keep away from drains, surface and ground water. Report spills to appropriate Authorities if required.

Methods and materials for containment and cleaning up

Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

Page 2/5

7. HANDLING AND STORAGE

Precautions for safe handling

Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use.

Conditions for safe storage, including any incompatibilities

Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition. Make sure the material does not come into contact with substances listed as: "Materials to Avoid".

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure controls

An eyewash fountain and / or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained.

Eyes The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended.

Skin Using chemical-resistant gloves and clothing is recommended.

Respiratory In well-ventilated areas, respiratory protection is not normally required. Apply local ventilation where appropriate.

Control parameters These Precautions are for room temperature handling. Use at elevated temperature or aerosol / spray applications may require additional Precautions

Biological limit values

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance : Dark brown mobile liquid.

Odor : Characteristic vanillin bean odor.

Flash point : 176 °C

Relative density : 1.00 – 1.14 @ 25 Deg. C

Solubility (ies) : Partially soluble in water with slight sediment. Partially soluble in ethanol (grain alcohol) with heavy sediment.

10. STABILITY AND REACTIVITY

Reactivity This material presents no significant reactivity hazard. Page 3/5

Chemical stability Chemically stable under normal conditions.

Possibility of hazardous reactions Hazardous Polymerization will not occur.

Conditions to avoid Avoid sparks, flame and excessive heat. Hazardous decomposition products When heated to decomposition produces acid fumes and carbon monoxide smoke.

11. TOXICOLOGICAL INFORMATION

Acute toxicity Not available.

Carcinogenicity None of the components of this material are listed as a carcinogen.

Reproductive toxicity No adverse effects on reproduction are known.

Inhalation Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin contact Adverse skin effects should be prevented by normal care and personal hygiene.

Eye contact May irritate eyes.

Ingestion Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting.

Skin corrosion May aggravate dermatitis, psoriasis and other skin conditions.

Repeated exposure Repeated or prolonged contact can cause redness, irritation of skin.

12. ECOLOGICAL INFORMATION

Ecotoxicity Adverse effects to aquatic organism and environment are not known. Avoid any pollution of soil, surface or underground water.

13. DISPOSAL CONSIDERATION

Dispose of product in accordance with local, state or provincial and federal regulations. Check with disposal expert to ensure compliance. Page 4/5

14. TRANSPORT INFORMATION

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

2. HAZARDS IDENTIFICATION

Emergency Overview

WHMIS Classification

Cautions: As with all essential oils, they should not be used during pregnancy and never ingested

GHS Classification

GHS Label elements, including precautionary statements

Signal : Warning Hazard statement(s) Precautionary statement(s)

HMIS Classification & Potential Health Effects

3. COMPOSITION / INFORMATION INGREDIENTS

Product Name	CAS NO	EC NO	Concentration
Vetiverol		45 – 50 %	α -Vetivol
	8.0 – 12 % β -Vetivenene		
	8.0 – 12 % γ -Vetivenene		
	8.0 – 12 % α -Vetivone		
	3.0 – 6.0 β -Vetivone		
	1.0 – 6.0 % 368		

4. FIRST AID MEASURES

Eye contact Contact with eyes can produce burning sensation. Irrigate with water immediately, continue flushing eyes with water for 15 minutes. Seek medical attention if irritation persists.

Skin contact Skin contact can produce irritation itching. Remove contaminated clothing. Wash with soap and plenty of water. Seek medical attention if irritation persists.

Inhalation Remove to fresh air. Give oxygen if breathing is labored and seek medical advice. Avoid casual breathing. Signs of over exposure are dizziness and nausea.

Ingestion Rinse mouth; dilute with milk or water and consult a physician immediately. Do not induce vomiting. Never give anything by mouth if victim is unconscious, is rapidly losing consciousness, or is convulsing.

5. FIRE FIGHTING MEASURES

Suitable extinguishing media Carbon Dioxide, dry chemical or foam. Closed containers may build up pressure at elevated temperature

Special protective equipment and Precautions for fire-fighters Self-contained breathing apparatus and protective clothing should be worn when fighting fires involving essential oils or chemicals.

Special hazards arising from the substance, combustion products or None identified.

Resulting gases Carbon Monoxide, Carbon Dioxide

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, protective equipment and emergency procedures.

Use of self-contained breathing apparatus is recommended for any major chemical spill. Refer also to section 8. Eliminate all ignition sources. Ventilate area. Determine the need to evacuate or isolate the area according to your local emergency plan.

Environmental Precautions

Keep away from drains, surface and ground water. Report spills to appropriate authorities if required.

Methods and materials for containment and cleaning up

Contain and collect with inert absorbent material and place in suitable container for disposal. Comply with all federal, state, and local regulation. Wipe small spills with cloth. Clean with hot water and detergent.

7. HANDLING AND STORAGE

Precautions for safe handling Avoid inhalation and contact with skin and eyes. Good personal hygiene practices should be used. Wash after any contact, before breaks and meals, and at the end of the work period. Contaminated clothing and shoes should be cleaned before re-use.

Conditions for safe storage, including any incompatibilities

Containers should be kept closed in order to minimize contamination. Store in a cool, dry, well ventilated place protected from light. Keep away from extreme heat and from freezing conditions and away from all sources of ignition. Make sure the material does not come into contact with substances listed as 'Materials to Avoid'.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Eyes

The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may

occur, the use of splash goggles or face shield is recommended

Skin Using chemical resistant gloves and clothing is recommended.

Respiratory In well ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of NIOSH approved respiratory protection normally required (use only if trained in proper use and with acceptable oxygen level).

Control parameters

An eyewash fountain and/or safety shower should be available in the work area. Acceptable industrial hygiene practices should be maintained. These Precautions are for room temperature handling. Use at elevated temperatures or aerosol spray applications may require additional Precautions.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance : Brown to reddish brown viscous liquid.

Odor : Characteristic sweet, woody, herbaceous odor.

Relative density : 0.975 – 1.035 @ 20°C

Solubility (ies) : Soluble in alcohol and oils. Insoluble in water.

Refractive index : 1.520 – 1.528 @ 20°C

Optional rotation : +14 – +45 @ 20°C 10.

STABILITY AND REACTIVITY

Chemical stability Chemically stable. This material presents no significant reactivity hazard.

Possibility of hazardous reactions Combustible liquid.

Conditions to avoid Avoid sparks, flame and excessive heat.

Incompatible materials Strong oxidizing agents.

Hazardous decomposition products Hazardous polymerization will not occur. When heated to decomposition produces acid fumes and carbon monoxide smoke.

11. TOXICOLOGICAL INFORMATION

Acute toxicity Not available.

Carcinogenicity None of the components of this material are listed as a carcinogen.

Chronic toxicity May cause allergic reactions on skin.

Reproductive toxicity No adverse effects on reproduction are known.

Inhalation Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin contact Repeated or prolonged contact can cause redness, irritation and scaling of skin (Dermatitis). Adverse skin effects should be prevented by normal care and personal hygiene.

Eye contact May irritate eyes.

Ingestion Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting.

Repeated exposure

May aggravate dermatitis, psoriasis and other skin conditions.

12. ECOLOGICAL INFORMATION

Ecotoxicity Very toxic to aquatic organism may cause long-term adverse effects in the aquatic environment. Avoid any pollution of ground, surface or underground water.

13. DISPOSAL CONSIDERATION

Dispose of product in accordance with local, state or provincial and federal regulations. Check with disposal expert to ensure compliance.

14. TRANSPORT INFORMATION

WHMIS Classification D2A

GHS Classification

Acute toxicity, Oral - Category 4
Skin Corrosion / Irritation - Category 2
Serious eye damage - Category 1

GHS Label elements, including precautionary statements

Signal : Danger

Hazard statement(s)

H315 Causes skin irritation.
H302 Harmful if swallowed.
H318 Causes serious eye damage.

Precautionary statement(s)

P280 Wear protective gloves/protective clothing/eye protection/face protection.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. . Remove contact lenses, if present and easy to do. Continue rinsing.

HMIS Classification & Potential Health Effects

HMIS Ratings : Health : 3, Flammability : 1, Physical Hazard : 0, Personal protection : B
Inhalation : May be harmful if inhaled. Causes respiratory tract irritation

Skin : May be harmful if absorbed through skin. Causes skin irritation.

Eyes : May cause eye irritation. Ingestion : Maybe harmful if swallowed

3. COMPOSITION / INFORMATION INGREDIENTS

Product Name	CAS NO	EC NO	Concentration
Methyl salicylate	119-36-8	204-317-7	> 97%

4. FIRST AID MEASURES

Eye contact

Immediately flush eyes with plenty of cool water for at least 15 minutes. Get medical attention if irritation occurs.

Skin contact

Remove contaminated clothing. Wash area with soap and water. If irritation occurs, get medical attention.

Inhalation

If inhaled, removed to fresh air. Get medical attention if symptoms appear.

Ingestion

Seek medical attention or contact local poison control center.

5. FIRE FIGHTING MEASURES

Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Special protective equipment and Precautions for fire-fighters

Wear self-contained breathing apparatus for firefighting if necessary.

Resulting gases

Carbon oxides

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, protective equipment and emergency procedures. Respiratory protection equipment may be necessary. Avoid breathing vapors, mist or gas.

Environmental Precautions

Prevent entry to sewers and public waters. Notify authorities if product enters sewers or public waters.

Methods and materials for containment and cleaning up

Clean up any spills as soon as possible, using an absorbent material to collect it. Use suitable disposal containers.

7. HANDLING AND STORAGE

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure controls

Use mechanical exhaust or laboratory fume hood to avoid exposure.

Eyes

Use tightly sealed goggles.

Skin

If skin contact or contamination of clothing is likely, protective clothing should be worn. Use protective gloves.

Respiratory

In case of insufficient ventilation, wear suitable respiratory equipment. Ingestion Not for ingestion.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance : Colorless to yellow liquid.

Odor : Characteristic intense sweet woody odor.

Odor threshold : Not available.

PH : Not available.

Melting Point/Freezing Point: -8 - 17°C.

Initial b.p and boiling range : 219 °C.

Flash point : 96 °C closed cup.

Vapor pressure : 1 mm Hg @ 54 °C

Relative density : 1.160 - 1.195

Solubility (ies) : Insoluble in water. 1 ml in 2 ml 95% ethanol

Refractive index : 1.523 - 1.543

Optional rotation : -1 - 1

10. STABILITY AND REACTIVITY

Chemical stability

Stable under recommended storage conditions.

Conditions to avoid

Heat sources.

Incompatible materials

Strong bases, Strong oxidizing agents.

Hazardous decomposition products

Carbon oxides

11. TOXICOLOGICAL INFORMATION

Acute toxicity LD50 Oral - Rat - male and female - 887 mg/kg LD50 Dermal - Rabbit - > 5,000 mg/kg

IARC No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

ACGIH No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

Signs & symptoms of exposure Mild chronic salicylate intoxication is termed salicylism. Symptoms include: headache, dizziness, ringing in the ears, difficulty in hearing, dimness of vision, mental confusion, lassitude, drowsiness, sweating, thirst, hyperventilation, nausea, vomiting, and occasionally diarrhea. A more severe degree of salicylate intoxication is characterized by more pronounced CNS disturbances (including generalized convulsions and coma), skin eruptions, and marked alterations in acid-base balance.

Teratogenicity

Laboratory experiments have shown teratogenic effects.

Respiratory or skin sensitization Maximisation Test (GPMT) - Guinea pig - Does not cause skin sensitisation.

Inhalation

May be harmful if inhaled. May cause respiratory tract irritation.

Skin contact

Harmful if absorbed through skin. May cause skin irritation.

Eye contact May cause eye irritation.

Ingestion Harmful if swallowed.

Serious eye damage Eyes - Rabbit - No eye irritation - 72 h

12. ECOLOGICAL INFORMATION

Ecotoxicity

Harmful to the aquatic environment.

Persistence and degradability

98.4 % - Readily biodegradable.

13. DISPOSAL CONSIDERATION

Dispose of product in accordance with local, state or provincial and federal regulations. Check with local municipal authority to ensure compliance.

14. TRANSPORT INFORMATION

US DOT Shipping Description (Land) Not regulated.

IMO-IMDG Shipping Description (Sea) Not regulated.

IATA Shipping Description (Air) Not regulated.

Safety Data Sheet

Section 1: Identification

Product name : Ylang Ylang Essential Oil, Cananga odorata

Botanical name : Cananga odorata

CAS # : 8006-81-3

Company: Soapgoods Inc

Address: 1824 Willow Trail Pkwy, Ste 200. Norcross. GA 30093

Phone: (404) 924-9080

E-Mail: wecare@soapgoods.com

Emergency Phone: Chemtrec: 1-800-424-9300

Recommended Use: Personal Care

2. HAZARDS IDENTIFICATION

Emergency Overview

WHMIS Classification Not applicable

GHS Classification Not applicable

GHS Label elements, including precautionary statements Signal : Not applicable

Hazard statement(s) Not applicable

Precautionary statement(s) Not applicable

HMIS Classification & Potential Health Effects

HMIS Ratings Health : 0, Flammability : 1, Physical Hazard : 0, Personal protection : B

Inhalation May be harmful if inhaled. Causes respiratory tract irritation Skin May be harmful if absorbed through skin. Causes skin irritation. Eyes May causes eye irritation Ingestion Maybe harmful if swallowed

Inhalation May be harmful if inhaled. Causes respiratory tract irritation

Skin May be harmful if absorbed through skin. Causes skin irritation.

Eyes May causes eye irritation

Ingestion Maybe harmful if swallowed

3. COMPOSITION / INFORMATION INGREDIENTS

Product Name	CAS NO	EC NO	Concentration
4-methylanisole	104-93-8	203-253-7	8%

Linalool	78-70-6	201-134-4	15.44%
Germacrene-D	37839-63-7		14.93%

4. FIRST AID MEASURES

Eye contact

Immediately flush eyes with plenty of cool water for at least 15 minutes. Get medical attention if irritation occurs.

Skin contact

Remove contaminated clothing. Wash area with soap and water. If irritation occurs, get medical attention.

Inhalation

If inhaled, removed to fresh air. Get medical attention if symptoms appear.

Ingestion

Seek medical attention or contact local poison control center.

5. FIRE FIGHTING MEASURES

Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Special protective equipment and Precautions for fire-fighters

Wear self-contained breathing apparatus for firefighting if necessary.

Resulting gases

Carbon oxides

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, protective equipment and emergency procedures. Respiratory protection equipment may be necessary. Avoid breathing vapors, mist or gas.

Environmental Precautions

Prevent entry to sewers and public waters. Notify authorities if product enters sewers or public waters.

Methods and materials for containment and cleaning up

Clean up any spills as soon as possible, using an absorbent material to collect it. Use suitable disposal

containers.

7. HANDLING AND STORAGE

Precautions for safe handling

No direct lighting. No smoking. Ensure prompt removal from eyes, skin and clothing. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Handle in accordance with good industrial hygiene and safety procedures.

Conditions for safe storage, including any incompatibilities

Provide local exhaust or general room ventilation to minimize dust and/or vapour concentrations. Keep container closed when not in use.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure controls

Use mechanical exhaust or laboratory fume hood to avoid exposure.

Eyes

Use tightly sealed goggles.

Skin

If skin contact or contamination of clothing is likely, protective clothing should be worn. Use protective gloves.

Respiratory

In case of insufficient ventilation, wear suitable respiratory equipment. Ingestion Not for ingestion.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance : Pale to golden yellow clear liquid

Odor : Characteristic sweet exotic floral odor

Initial b.p and boiling range: 261 °C

Flash point : 86 °C

Relative density : 0.890 - 0.930

Solubility (ies) : Soluble in alcohol and oils. Insoluble in water

Auto-ignition temperature : Product is not selfigniting.

10. STABILITY AND REACTIVITY

Chemical stability

Stable under recommended storage conditions.

Conditions to avoid

Heat sources.

Incompatible materials

Strong bases, Strong oxidizing agents.

Hazardous decomposition products

Carbon oxides

11. TOXICOLOGICAL INFORMATION

Acute toxicity

LD50 Oral - Rat - > 5,000 mg/kg

LD50 Dermal - Rabbit - > 5,000 mg/kg

IARC No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

ACGIH No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

Inhalation Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin contact Adverse skin effects should be prevented by normal care and personal hygiene.

Eye contact Possible irritation should be prevented by wearing safety glasses.

Ingestion May be harmful if swallowed.

Repeated exposure Repeated or prolonged contact may cause redness, irritation and scaling of skin (Dermatitis).

12. ECOLOGICAL INFORMATION

Ecotoxicity

Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

Persistence and degradability Not available.

Bio - accumulative potential Not available

Mobility in soil Not available.

Other adverse effects Not available.

13. DISPOSAL CONSIDERATION

Dispose of product in accordance with local, state or provincial and federal regulations. Check with local municipal authority to ensure compliance.

14. TRANSPORT INFORMATION

US DOT Shipping Description (Land) Not regulated.

IMO-IMDG Shipping Description (Sea) Not regulated.

IATA Shipping Description (Air) Not regulated.

15. REGULATORY INFORMATION

WHMIS Classification

Not WHMIS controlled

HMIS (USA)

Health : 0, Flammability : 1, Physical Hazard : 0

California Proposition 65

Contains substance identified in the revised list of the California Safe Cosmetic program SB 484 (included in Proposition 65 revised list): - Contains Myrcene, Methyl Chavicol.

GHS Hazard Statements

Not a dangerous substance according to GHS.
